WOOD'S SEEDS
for FALL PLANTING 1924

V. P. I. No. 1
BLACK WINTER OATS

ALFALFA

T.W. WOOD & SONS  SEEDSMEN  RICHMOND, VA.
IN AUGUST, SEPTEMBER AND OCTOBER

**SOW WOOD'S EVERGREEN LAWN GRASS**

From August 15th till October 15th—the earlier the better—is the best season to sow lawn grass. Sown at this time, the grass gets well established before freezing weather, makes a beautiful green lawn through the winter, and before hot weather comes is strong enough to withstand the heat of summer and combat the weeds. Spring sown lawn grass seeds have a hard fight with weeds, so we strongly advise fall sowings.

**To Make a Lawn**

Remember when making a lawn that it is to last for years and be an ornament to the home, so give plenty of time and care to preparation before the seeds are sown. Several weeks before sowing dig the soil deeply, break up the lumps, apply Sheep Manure or Lawn Fertilizer, and rake the top soil; at intervals of ten or two weeks rake the surface to destroy the weeds. If rolled immediately after sowing the seeds too deep—covering with a roller is better—small seeds cannot germinate if planted too deep; an eighth of an inch is about right. Do not put stable manure on your lawn, as it adds to the many weeds already in the soil, and if not well broken up the lumps of manure will smother the young grass.

**Weeds and Coarse Grasses** spring up naturally in all soils. After a soaking rain these can easily be pulled out and a few seeds scattered over the lawn to fill in the bare spots.

**Renewing Old Lawns**

A lawn can be kept thick and flourishing if at intervals the soil is stirred with a sharp rake and more seeds sown. This should be done just after the grass has been cut, or during a rainy spell. If rolled immediately after sowing the seeds will be better covered. Every spring and fall fresh seeds should be sown over the lawn to fill in bare spots and thicken the growth.

**Wood's High Grade Sheep Manure**

A pure natural manure that will give quick results on lawns, roses and pot plants. It is a well balanced plant food that will promote a rapid and steady growth. It is dried and pulverized, clean and easily handled, no weeds, straw and refuse. Do not use stable manure on your lawn—it is disagreeable to handle, is unsightly, but worse still, it fills the ground with weeds that will be hard to get rid of, that are naturally of stronger growth than grasses, and will choke out the grass if allowed to remain and spread, besides making the lawn unsightly.

On new lawns apply 10 lbs. to 100 square feet; as a top dressing 25 lbs. to 250 square feet.

Not prepaid, 25-lb. bag 85 cts.; 50-lb. bag $1.50; 100-lb. bag $2.40; 500 lbs. $11.50; ton $43.00.

---

**WOOD'S EVERGREEN LAWN GRASS**

1 lb. sows 300 square feet; 60 to 75 lbs. sow an acre

Our Evergreen Lawn Grass is a mixture of grasses that are adapted to lawn making, and contains none of the coarse grasses nor those that become yellow in autumn unless wanted. A mixture of grasses makes an ideal lawn grass, so we have put into our Evergreen a well-balanced mixture of grasses that are at their best during different months of the year, will give a beautiful green growth at all seasons, and will make a rich, deep green, velvety lawn in as short a time as possible. For years we have experimented with various grasses and combinations of grasses that are suited to lawn making and offer a lawn grass mixture that will give a thick and luxuriant turf, provided you follow the instructions given about the care and attention it deserves.

**Wлав’S PERMANENT LAWN GRASS**

1 lb. sows 300 square feet; 40 to 50 lbs. sow an acre

This mixture is composed of robust-growing grasses, and is designed to give a satisfactory mixture for parks or large places where lawn and grazing are to be combined, or where special care and attention cannot be given to the lawn. This mixture will stand drought, better than the finer lawn grasses.

**WINTER LAWN GRASS**

1 lb. sows 300 square feet; 40 to 50 lbs. sow an acre

In parts of the South, Bermuda grass is grown for lawns, but it does not remain green throughout the winter. On such lawns our Winter Lawn Grass will give a constant, green, luxuriant growth all the year round. When sown on Bermuda sod, scarify the sod with a sharp rake or harrow; sow the seeds at the rate of 1 lb. to 300 square feet, or 40 to 50 lbs. to the acre, and cover with a rake or harrow—a roller is even better. Winter Lawn Grass can also be sown alone on a lawn prepared as described under "To Make a Lawn." On lawns throughout the South it will give a most satisfactory green lawn throughout the winter.

**SHADY PARK LAWN GRASS**

A special mixture of grasses adapted to growing under trees and in shady places where it is difficult to get other grasses to grow.

**WHITE CLOVER for LAWNS**

For description see page 2.

**STANDARD GRASS AND LAWN FERTILIZER**

Analysis: Ammonia, 2 per cent; Phosphoric Acid, 12 per cent; Potash, 2 per cent.

A quick acting and lasting fertilizer prepared especially for lawns and grass fields. It contains the necessary plant foods in the proper proportions to give a quick and luxuriant growth and to give the lawn that much desired rich deep green color. On lawns apply at the rate of 5 lbs. to 250 square feet. By mail, prepaid, 5 lbs. $2.35; 10 lbs. $6.85; 25 lbs. $19.75.

Not prepaid, 1 lb. 85 cts.; 5-lb. lots 75 cts. per lb.; 10-lb. lots 65 cts. per lb.
ORDER FOR

T. W. WOOD & SONS
SEEDSMEN
RICHMOND, VA.

About Warranting Seeds — While we use great care, both for our own and our customers' interest, to supply and furnish the best seeds that it is possible to obtain, there are so many conditions—weather and other causes—affecting the growth of seeds and the out-turn of crops, that it must be distinctly understood that all our seeds are sold under the conditions in regard to non-warranty of seeds, which have been generally adopted by the seed trade and which are as follows: "We give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned, and amount paid for them will be refunded."

What Is Your Policy?

The Two Ways

There are two distinct and widely different ways of buying seeds—
you can buy on a price basis and save a few cents an acre in the cost of seeding, or you can pay the few cents an acre more and have Trade Mark Brand, the highest quality in which seeds can be had. Keep in mind that it amounts to only a few cents an acre. For instance, there is usually a difference of about 50c and 75c between the cost of cheap clover seeds that carry many weed seeds and the cost of Trade Mark Brand that we have called our machinery will make them. If you pay 75c a bushel more for Trade Mark Brand it costs less than 20c an acre extra to buy the very best, and you get something worth more than the small difference in price; besides you are not adding to the already abundant quantity and variety of weeds in your land. If you sow cheap seeds you may be sowing trouble for the future by sowing weeds you have not heretofore had and which may become troublesome pests.

It is the poorest kind of economy to sow cheap seeds; it is a "penny wise, pound foolish" policy when you consider that the difference in price between the best and poorest is so ridiculously small.

For Your Protection

On every bag of seeds that leaves our house weighing 10 lbs. or more there is attached a tag on which is printed in plain figures the percentage of germination, the percentage of weed seeds contained in the seeds we ship to you. This is the best kind of assurance that WOOD'S SEEDS are the finest quality, and do not forget that the difference in price amounts to only a few cents an acre. Our mail brings us inquiries from thousands of Southern farmers—wonderful ones who always write about quality first—make this your policy and be numbered among the "best farmers."

Thank You

To the thousands of good friends who have favored us with their business we wish to express our gratitude. They have enabled us to build up a wonderful business and we thank them for the confidence they have placed in us and in WOOD'S SEEDS. We assure them, and our new friends as well, that we will endeavor to merit their confidence and will do our utmost to hold their good will.

Very truly yours,

August 1, 1924.

T. W. WOOD & SONS.

GENERAL INFORMATION AND TERMS OF SALE

How to Send Money—Money should be sent by BANK CHECK, POSTAL MONEY ORDER, EXPRESS MONEY ORDER OR REGISTERED LETTER; in case they go astray in the mails they can be traced and duplicates secured. Always register letters containing currency. Postage stamps in small amounts are satisfactory. Customers who have no regular account with us will kindly remit the amount with their orders, or name business references, as customary, before opening new accounts.

C. O. D. Shipments—Shipping C. O. D. only adds to the cost, as the buyer pays the expense of collection. If you prefer shipment C. O. D. remit with your order one-half the amount of the bill. Under no circumstances will we ship perishable goods C. O. D.

Your Name and Address—Always be sure to give both; we have hundreds of orders, either unsigned or without address, awaiting identification. If you have not received the seeds you ordered probably yours are among them.

Postpaid Prices on Garden Seeds means that garden seeds so quoted will be delivered to your door if you live on an R. F. D. route or at any postoffice in the United States at postpaid prices. If you prefer, we will ship by express and prepaid express charges. Shipping by express is safer than by parcel post.

Postpaid Prices on Field Seeds Apply to Va., N. C., W. Va., Md., Del., N. J. and Penna.

Postage to Other States: To S. C., Ga., Ky., Tenn., Ohio, Ind., N. Y., New England and Mich., add 2c per pound to postpaid prices.
To Ala., Ark., Fla., Ill., Iowa, La., Miss., Mo., and Wls., add 4c per pound to postpaid prices.
To Texas, Okla., Kan., and Neb., add 6c per pound to postpaid prices.
To Cuba, add 10c per pound to postpaid prices.

Fluctuation in Prices—Some time must necessarily elapse between the date of the printing and printing of this catalog and the time it reaches you. In the meantime the market prices of some varieties, particularly field seeds, may have changed. As far as possible these price changes will be printed in our CROP SPECIAL, a copy of which, quoting current prices, will be sent you free on request. At any time we will be glad to quote you final prices, or we will fill your order at the lowest prevailing prices, whether higher or lower than as printed in this catalog. If prices are lower, you get the benefit of decline in price, of course, being compelled to charge the prevailing price at the time the order is received.

Bags—We make no charge for bags for wheat, oats, rye, barley and such grass seeds as can be safely shipped in grain bags. When seeds are ordered at "postpaid" prices there is no charge for bags. When ordered at "not postpaid" prices in lots of 30 lbs. or more of clover, timothy, herds grass, rape and such seeds as require cotton bags for safe shipment, we charge for bags as follows: 2½ bushel size, 50c; 1 bushel size, 25c; 1½ bushel size, 15c. There is no charge for bags on these seeds when ordered in lots of less than 10 lbs.

About Warranting Seeds—While we use great care, both for our own and our customers' interest, to supply and furnish the best seeds that it is possible to obtain, there are so many conditions—weather and other causes—affecting the growth of seeds and the out-turn of crops, that it must be distinctly understood that all our seeds are sold under the conditions in regard to non-warranty of seeds, which have been generally adopted by the seed trade and which are as follows:

"We give no warranty, express or implied, as to description, quality, productivity or any other matter of any seeds, bulbs or plants we sell, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned and amount paid for them will be refunded.

This does not mean that we lack confidence in Wood's seeds. We offer you the best seeds because it is the fair thing to do and because we want to stay in business and grow. But we cannot control planting and cultural methods and weather and soil conditions, all of which affect the out-turn of crops. No responsible seedsmen will warrant his seeds.
Wood’s High-Grade Clover Seeds

Why Sow Clover

It does not exhaust the soil, but improves it. To make two cuttings of fine hay a year, to make an excellent pasture, to improve the land, to have a variety. To make your farmland easily worked. To increase the yield of the crop that follows it. To save in your feed bill, to improve the soil. Because it belongs in every crop rotation. Because it is the corner-stone of good farming.

The sowing of clover seed is absolutely essential to proper rotation of crops and to keep up the fertility of the land. Clovers are the basis of successful farming. Land well set in clover not only makes a good forage or hay crop, but improves the condition and productivity of the land. In the rotation of crops, clovers are most valuable, and in all sections except possibly the extreme South, are indispensable. If our tobacco and cotton growers would depend more upon clover in proper rotation, they would spend far less for commercial fertilizers.

RED CLOVER

We do not handle imported Italian Clover. It grows well enough, but is not hardy and will not stand our winters.

The standard hay, pasture and soil-improving crop wherever general farming is practiced. Red clover on good land will yield two cuttings a year. The first crop makes rich feed, and is the most valuable for hay; cut when in full bloom. For hay it is particularly well adapted for sowing with orchard grass and tall meadow oat grass, as it ripens at the same time, and sowing the three together will give larger yields of better quality hay than sowing either alone.

A Good Mixture.—15 pounds of orchard grass, 12 pounds of tall meadow oat grass and 3 pounds of clover will give excellent results, and if it is desired to use the land for pasture only, 20 pounds of clover should be used. For early sowing, the addition of 6 pounds of mixed clover, red top pastures or clover in the winter season it grows 1½ to 2½ feet high, but when cut 6 inches high the plant stools out and makes a more tender growth for grazing. The second year it grows 3 to 4 feet high, and the first bloom buds appear. It is not necessary to plow before sowing, and if grass cuttings are used as a mulch, they must be thoroughly mixed with the seed. The seed is sown at the rate of 10 lbs. to the acre.

Not prepaid, lb. 35 cts.; 10-lb. lots, 27 cts. per lb. 50-lb. lots, 25 cts. per lb.; 100-lb. lots, 25 cts. per lb.—bags extra.

SWEET CLOVER

WHITE BOKHARA, or MELLITOS ALBA.—On lands too poor to grow a paying crop of corn, on worn-out, galled, waste land, on land too sandy to grow any other crop, or too acid or too wet for other clovers, sow Sweet Clover, and after a few years the land can be brought into condition for general crops. It is adapted to a wider variety of soils than any other clover. It is useful for pasture, for forage, for bees, for turning under to improve (for it is a nitrogen gatherer). For inoculating the land for grasses. It is one of the most valuable clovers. The first sowing makes a sod, or can be turned under when the seed is 1½ to 2½ feet high, but when cut 6 inches high the plant stools out and makes a more tender growth for grazing. The second year it grows 3 to 4 feet high, and the first bloom buds appear. It is not necessary to plow before sowing, and if grass cuttings are used as a mulch, they must be thoroughly mixed with the seed. The seed is sown at the rate of 10 lbs. to the acre.

Not prepaid, lb. 25 cts.; 10-lb. lots, 20 cts. per lb.; 50-lb. lots, 18½ cts. per lb.; 100-lb. lots, 18 cts. per lb.—bags extra.

MAMMOTH or SAPLING CLOVER

Similar to Red Clover, both in appearance of the seed and habit of growth, the difference being, the former grows larger and is later in maturing. It is considered superior as an improver on account of the extra growth. It is a good variety for thin soils, or to seed with clover to improve the stood grass or red top, as it matures about the same time as these grasses. The appearance of the seed is identical with red clover. The later sown cannot be distinguished from it. We sow it with either clover seed or with a seed that is inferior to any other clover. It is adapted to a variety of soils, succeeding on light upland and loamy, as well as on bottom lands. Particularly valuable for grazing and for making hay, and in mixtures of grasses whether grown for hay or grazing, for it makes a thick undergrowth, and increases the yield as well as the feeding value of the hay.

ALSIKE CLOVER

Aliske clover grows thicker, is finer stemmed than red clover, has plenty of leaf and makes better hay. It is less delicate than any other clover. It is adapted to a variety of soils, succeeding on light upland and loamy, as well as on bottom lands. Particularly valuable for grazing and in mixtures of grasses whether grown for hay or grazing, for it makes a thick undergrowth, and increases the yield as well as the feeding value of the hay.

Not prepaid, lb. 30 cts.; 10-lb. lots, 22 cts. per lb.; 50-lb. lots, 18 cts. per lb.; 100-lb. lots, 20 cts. per lb.—bags extra.

BURR CLOVER

For the Southern States, burr clover is a valuable soil improver and a fine winter green. It grows better and is, perhaps, pastured too rarely; it reseeds itself and improves each year. Mixed with Bermuda grass it makes a splendid all-the-year-round pasture. When sown on Bermuda grass scarify the sod to allow the clover to become well rooted—this is especially necessary if it is not freshly made. Clover seed is somewhat scarifying also beneficial to the Bermuda grass. Burr clover is frequent- ly sown in cotton and corn mixtures. The last growing like crimson clover and clover, the improvement in the soil being quite marked. Southern-grown burr clover seeds are not to be equaled. Sown in the fall and cut, and before sowing should be soaked twenty-four hours to insure and hasten germination. Sow 20 to 25 lbs. to the acre. By mail, postpaid, lb. 35 cts.; 5 lbs. $1.45; 10 lbs. $2.65; 25 lbs. $6.10; 50 lbs. $11.75—bags included.

Not prepaid, lb. 30 cts.; 10-lb. lots, 23 cts. per lb.; 50-lb. lots, 21 cts. per lb.; 100-lb. lots, 20 cts. per lb.

WHITE CLOVER

For Lawns and Pastures

This is very largely used in lawn and pasture mixtures. It makes a small, close, compact growth, covering the ground like a carpet. Does well all through the South. Sown in the spring or fall, and the difference being, the former grows larger and is later in maturing. It is considered superior as an improver on account of the extra growth. It is a good variety for thin soils, or to seed with clover to improve the stood grass or red top, as it matures about the same time as these grasses. The appearance of the seed is identical with red clover. The later sown cannot be distinguished from it. We sow it with either clover seed or with a seed that is inferior to any other clover. It is adapted to a variety of soils, succeeding on light upland and loamy, as well as on bottom lands. Particularly valuable for grazing and in mixtures of grasses whether grown for hay or grazing, for it makes a thick undergrowth, and increases the yield as well as the feeding value of the hay.

Not prepaid, lb. 75 cts.; 5-lb. lots, 70 cts. per lb.; 10-lb. lots, 65 cts. per lb.—bags extra.
CRIMSON CLOVER THE WONDERFUL SOIL IMPROVER

Sow in July, August or September, 15 lbs to the Acre

Take advantage of every opportunity to sow crimson clover on all vacant lands to stand out through the winter; it will furnish a cover crop and a valuable soil-improving crop at the same time.

Crimson clover is very desirable for dairymen, and makes excellent fall, winter and spring grazing. As a grazing crop, it is better to sow with rye. Also very valuable as a cover crop in orchards.

Crimson clover can be grazed or cut for hay, and then the stubble plowed under, with very considerable improvement to the land. It is a particularly valuable soil improver for corn and cotton when sown at the last working, plowing under the clover the following May and again planting in corn or cotton and growing larger crops every year.

WHEN AND HOW TO SOW

Sow from the end of July to early in October. Prepare the land well and then wait for a rain. As soon as you can after a rain sow your crimson clover.

Inoculate this Seed with FARMOGERM

The sowing of one-half to three-fourth bushel of either rye or barley to the acre with crimson clover will increase the yield, insure a green cover crop, and if, wanted for hay, will make it easier to cure.

The sowing of crimson clover at the last working of corn and other cultivated crops gives an ideal preparation, surer to give a stand than if the land is freshly plowed. It is too porous, causing the seed to be covered too deeply, and not giving the plant sufficient root-hold.

By mail, postpaid, 1b., 25c; 5 lbs., $1.50; 10 lbs., $3.00; 25 lbs., $8.75; 50 lbs., $17.50, bags included.

Not prepaed, 1b., 15c; 10-lb. lots, 11c per lb.; 50-lb. lots, 9c per lb.; 100-lb. lots, 8¼c per lb., bags extra.

WHITE BLOOMING CRIMSON CLOVER

Two to three weeks later than ordinary crimson clover, makes a larger growth, a better hay, and is ready at a better season. Dairymen and stock raisers find it advantageous to grow both varieties to lengthen out the season. For hay, we recommend sowing 10 to 12 pounds to the acre, with one bushel of either Virginia Gray Winter or rust-proof oats.

By mail, postpaid, 1b., 30c; 5 lbs., $1.05; 10 lbs., $1.55; 25 lbs., $4.10; 50 lbs., $7.75, bags included.

Not prepaed, 1b., 20c per lb.; 10-lb. lots, 15c per lb.; 50-lb. lots, 13c per lb.; 100-lb. lots, 12¼c per lb., bags extra.

FACTS ABOUT ALFALFA

Once established, it lasts for years.

Yields 3 to 5 cuttings nutritious and palatable hay each season.

Feeding value high—contains as much protein as wheat bran.

Does not exhaust the soil; it enriches it.

Claimed to add twice as much nitrogen to the land as Red Clover.

Requires but little care and attention.

One of the farmer's most profitable crops.

ALFALFA RULES FOR SUCCESS WITH ALFALFA

RENEMBER YOU ARE MAKING AN INVESTMENT on which you expect profits for a number of years, and that your profits will be in proportion to the care exercised in preparing your land before you sow the seeds.

THE SOIL. Sow only on deep, well-drained, good, loamy land that is not underlaid by a stiff, hard pan that the roots cannot penetrate. If possible, sow on land from which a hoed crop has just been taken; such land will be reasonably free of weeds. The land should contain an abundant supply of decomposed vegetable matter—a green crop turned under and lime liberally applied will give this condition.

LIME AID SOILS. Alfalfa will not grow on acid soils. The bacteria that live on the roots, drawing nitrogen from the air and making it available as plant food, cannot live in acid soil. Test your soil by taking a handful of soil from 2 or 3 inches below the surface, wet it with rain water, if not already moist, insert a piece of blue litmus paper (get it at any drug store). If, 15 minutes later, the litmus paper has changed to pink, your soil is acid. To correct acidity, spread one or two tons of lime over the acre. After plowing and a few weeks before sowing; in the meantime, keep the harrows busy to kill out the weeds.

DRAINAGE. Alfalfa will not live with its feet in water, so be sure the land is well drained. Good crops can be grown on lowlands if properly drained, either with tile or open ditches, to a depth of at least four feet.

INOCULATE. Do not attempt to grow alfalfa without inoculating, except on fields where it has previously been grown. We recommend for alfalfa, described on page 11.

KILL THE WEEEDS. Young alfalfa plants are tender, and are likely to be killed by weeds. If you sow on land on which a cultivated or smothering crop has just been grown it will be too free of weeds; but if you must sow on weedy land, plow some time before sowing, and harrow at frequent intervals, ten days or two weeks. Frequent harrowing will not only kill off the weeds, but the seed bed will be in better condition.

SOW 20 to 30 pounds to the acre from August 15th to October 1st, covering 1 inch deep on light sandy soils, 4 to 1 inch on heavier soils.

ALFALFA TRADE-MARK BRAND. By mail postpaid, 1b., 35c; 5 lbs., $1.55; 10 lbs., $2.85; 25 lbs., $6.75; 50 lbs., $13.00—bags included.

Not prepaid, 1b., 30c; 10-lb. lots, 25c per lb.; 50-lb. lots, 23¼c per lb.; 100-lb. lots, 23c per lb. Bags extra on 50-lb. lots and over.

CERTIFIED GRIMM ALFALFA Grimm is the hardiest of all alfalfas—has stood the severe winters of the Northwest year after year without being winter killed. The principal difference between Grimm and ordinary alfalfa is in the root growth, the Grimm having a spreading or branching root with many laterals, while the ordinary alfalfa has a long tap root with but few laterals. This branching root growth gives the plant a firmer hold on the soil and prevents them from being heaved out of the ground by frequent freezes and thaws. It also adapts it to shallower soils and those with a stiff subsoil.

By mail postpaid, 1b., 70c; 5 lbs., $2.50; 10 lbs., $5.50; 25 lbs., $13.35; 50 lbs., $26.25—bags included.

Not prepaid, 1b., 60c; 10-lb. lots, 52c per lb.; 50-lb. lots, 50c per lb.; 100-lb. lots, 48c per lb., bags extra.
**WOOD’S HIGH-GRADE GRASS SEEDS**

**ORCHARD GRASS**

A very vigorous grower and yields large crops of excellent and nutritious grass in all seasons, well adapted to standing special value as a pasture grass, furnishing good grazing from early spring till winter. It responds quickly after cutting or grazing, for in a few weeks under proper weather it is ready for grazing again. For hay, be sure to cut when in bloom or as soon thereafter as possible for it left too long the woody fiber content increases.

Orchard grass is particularly well adapted for pastures, and has the further advantage of growing well in shade, giving excellent results on soils that are inclined to be of a sandy texture. It is a deep-rooted perennial grass, but growing in tufts does not form a true sod, so should have other grasses sown with it. A mixture of 15 pounds orchard grass, 12 pounds tall meadow oat grass and 8 pounds of red clover, all maturing at the same season, is recommended for hay and pasture. For a permanent pasture, red top or herds grass, Kentucky blue, meadow fescue or Randall grass, perennial and Italian rye grasses and alsike clover may be added to this mixture.

To have orchard grass fields continue in a high state of productivity, all light seeding should be made every fall to fill in bare spots or where the stand has become thin. A top dressing of well rotted manure applied each winter will help materially in maintaining its productivity. Fertilizers applied in March at the rate of 300 to 400 pounds to the acre give very satisfactory results.

**Wood’s Grass and Lawn Fertilizer, Listor’s Standard Bone Superphosphate and Nitrate of Soda are best for quick results; for permanent improvement use Wood’s Standard Bone Meal.**

**Kentucky Blue Grass**

The Grass That Made Kentucky Famous

Sow 35 to 40 lbs. to the acre.

On lands that will grow Kentucky blue grass there is probably no other grass that equals it for making a permanent pasture, nor one that will yield a richer, sweeter and more nutritious hay. When except on very light sandy soils it should be included in all grass mixtures sown for grazing. It is one of the finest grasses in the spring and gives the very finest grazing till snow flies.

The Kentucky blue grass is hardly, will withstand the coldest weather, and the trampling of hoofs does not hurt it, as the roots are thick and stout and form a tough sod, but do not turn stock on it till the grass is strong and will stand the winter. As this takes one year or more, we suggest that it be sown with at least one other grass. If sown with a single grass use perennial rye grass, but a better mixture would be 22 lbs. Kentucky blue, 6 lbs. red top or herds grass, 5 lbs. perennial rye grass, 5 lbs. meadow fescue or Randall grass and 5 lbs. red clover.

Although slow to establish itself, Kentucky blue grass, once a stand is had on land to which it is adapted, lasts for many years, as the plants spread with their underground roots and will last five years or more, and will spread year by year and rarely needing reseeding.

Our special grass and clover pasture mixtures described on page 6 all contain a liberal proportion of Kentucky blue grass.

**Grass Seeds—**

- Postpaid, 1 lb. $1.55; 10 lbs., $15.50; 50 lbs., $76.50; 100 lbs., $127.50, bags included.
- Not postpaid, 1 lb., 45 cts.; 10-lb. lots, 37 cts. per lb.; 50-lb. lots, 35 cts. per lb.; 100-lb. lots, 32 cts. per lb.
- Postpaid Prices—Apply to Va., N. C., W. Va., Md., Del., N. J. and Penna.

**Postage to Other States:** To S. C., Ga., Ky., Tenn., Ohio, Ind., N. Y., New England and Mich.: add 2 cents per pound to postage prices.

To Ala., Ark., Fla., Ill., Iowa, La., Miss., Mo. and Wis., add 4 cents per pound to postpaid prices.

To Texas, Okla., Kans., Neb., and 6 cents per pound to postpaid prices.

To Cuba add 10 cents per pound to postpaid prices.

**TALL MEADOW OAT GRASS**

This grass is increasing in popularity wherever it is grown. It seems to make more growth in the spring, furnishing a larger yield of hay, and to keep green longer, both during the winter and summer, than most grasses. It withstands heat, drought and cold, starts very early in the spring and good grazing until late in the fall. It can be cut twice a season, frequently producing nearly double as much hay as timothy. Its nutritive qualities are first class. For hay cut while in bloom.

It is best adapted for good loamy uplands, but gives excellent results on nearly all soils and better than most grasses on light, sandy or gravelly soils. 15 pounds orchard grass and 15 pounds tall meadow oat grass and 8 pounds of red clover, or addition of 6 or 7 pounds red top or herds grass seed to the acre to this mixture increases the aftermath and the yield of grazing. Kentucky blue, perennial rye, red fescue and meadow fescue can also be added to this mixture; they will add materially to the value of the pasture and increase the yield.

**Italian Rye Grass**

Sown in the fall on good soil or on low ground. Italian rye grass furnishes a full cutting of excellent and most nutritious hay the following May or early in June, and will also furnish two or three additional cuttings the same year. It is one of the quickest growing of hay grasses, and does best in a well drained, rich soil. If ov-tended cuttings the winter, it is one of the most satisfactory results.

By mail, postpaid, 1 lb. $1.10; 10 lbs., $11.00; 25 lbs., $28.75; 50 lbs., $58.00, bags included.

Not postpaid, 1 lb., 45 cts.; 10-lb. lots, 37 cts. per lb.; 50-lb. lots, 35 cts. per lb.; 100-lb. lots, 32 cts. per lb.

**Perennial Rye Grass**

This grass is becoming more and more appreciated as a pasture grass. It produces an abundance of food, and the sun remains bright and green throughout the season. It is kept down by frequent and close cropping, and is not easily injured by the trampling of animals, it prefers a stiff wet soil, but does well on any soil that is not too dry; it has given very satisfactory crops on lands too wet for timothy, lasting for several years.

On Bermuda grass lawns a sowing of perennial rye will keep the lawn green throughout the year. Sow 25 to 30 pounds to the acre at any time up to the end of October, but early seeding is recommended.

By mail, postpaid, 1 lb. 30 cts.; 5 lbs., $1.10; 10 lbs., $1.95; 25 lbs., $4.50; 50 lbs., $8.50—bags included.

Not postpaid, 1 lb., 20 cts.; 10-lb. lots, 15 cts. per lb.; 50-lb. lots, 13 cts. per lb.; 100-lb. lots, 15 cts. per lb.

**Red Fescue**

A grass that is deservedly becoming popular for pasture, making a fine, thick, durable turf that stands adverse weather conditions remarkably well. It resists drought and thrives on poor, sandy or gravelly soils. A good stand of sod is sown by itself, or in mixtures, and is used on poor lands intended for grazing. Grows very well in shaded places.

By mail, postpaid, 1 lb. 45 cts.; 5 lbs., $1.70; 10 lbs., $3.15; 25 lbs., $7.25; 50 lbs., $14.25. Bags included.

Not postpaid, 1 lb., 35 cts.; 10-lb. lots, 28 cts. per lb.; 50-lb. lots, 26 cts. per lb.; 100-lb. lots, 25 cts. per lb.

Grass Seeds
SEEDS FOR THE FARM

RED TOP, OR HERD'S GRASS

THE BLUE GRASS OF THE ATLANTIC COAST

Red top or herd's grass is one of the most satisfactory grasses for the South, and is highly recommended for lands that will not grow Kentucky blue grass. It is well adapted to a great variety of soils and situations, succeeding equally well in light, sandy soils, as well as stiff upland and low ground, and grows better in moist situations than almost any other grass. It is one of the easiest grasses to grow and is particularly suited for pasturing chickens and improving, taking possession of the land and increasing in yield each successive year.

Red top or herd's grass should be a large constituent part of all mixtures intended for permanent pasture or hay. It seems indigenous to our Southern soils, and while it lasts a long time and spreads and makes lawns, it is not adapted in case it is desired to put the land in cultivated crops. It makes excellent pasturage and good crops of fine quality hay.

Red top is excellently adapted for seeding with timothy for hay and furnishes excellent pasturage afterwards. It is also one of the best grasses for hillsides or lands likely to wash. With timothy, and for growing in shaded places and herd's grass and 8 lbs. of timothy per acre. Adding to this mixture 7 lbs. meadow fescue and 5 lbs. salping or mammoth clover will give better legility to the hay, and has proved very satisfactory.

When sown alone, sow 8 to 10 lbs. to the acre.

By mail, prepaid, lb. 35 cts.; 10-lb. lots 21 cts. per lb.; 50-lb. lots 19 cts. per lb.; 100-lb. lots 18½ cts. per lb.—bags extra.

Meadow Fescue (RANDALL GRASS)

Meadow fescue is particularly well adapted to our Piedmont and mountainous sections. It also gives excellent results on good loamy or heavy soils and on low grounds. It is a splendid spring and summer grass, stands clover, and makes more than other fescues and fescue grasses pastureage. Its roots penetrate deeply, adapt it to heavy and clay soils and making it quite drought resistant. It is a fine grass to sow with red top or herd's grass and timothy for hay or with red top or herd's grass and 8 lbs. meadow oat grass for pasturage. A good mixture, having meadow fescue and 10 lbs. meadow fescue, 5 lbs. red top or herd's grass, 6 lbs. timothy and 5 lbs. salping clover: for grazing add 3 lbs. each one on the above 10 lbs. meadow oat. 6 lbs. Kentucky blue and 5 lbs. red clover to the mixture.

When sown alone sow 30 lbs. to the acre.

By mail, prepaid, lb. 30 cts.; 5 lbs. $1.15; 10 lbs. $2.05; 25 lbs. $4.75; 50 lbs. $9.00, bags included.

Not prepaid, lb. 25 cts.; 10-lb. lots 17 cts. per lb.; 50-lb. lots 15½ cts. per lb.; 100-lb. lots 14½ cts. per lb.

Hard Fescue

Hard fescue deserves a place in all mixtures of permanent pasture grasses. It is a very resistant, extremities of heat, cold and long droughts. It is particularly well adapted to poor, dry, sandy soils. Not tall enough for hay, but in combination with other grasses it makes a good pasture on soils too poor, dry and rocky for general grass growing. It also makes a good lawn, especially in shaded places. Sow 25 to 30 lbs. to the acre.

By mail, prepaid, lb. 35 cts.; 5 lbs. $1.55; 10 lbs. $2.85; 25 lbs. $6.60; 50 lbs. $12.75—bags included.

Not prepaid, lb. 30 cts.; 10-lb. lots 25 cts. per lb.; 50-lb. lots 23 cts. per lb.; 100-lb. lots 22 cts. per lb.

Sheep Fescue

Sheep fescue is well adapted to the growing of both hay and pasture grasses, for it will grow on thin, dry, sandy and rocky soils where few grasses will grow, and will stand any amount of drought. Not tall enough for hay, but in mixed pastures, where the unprofitable acres of the farm it will yield a handsome return. By mail, prepaid, lb. 30 cts.; 5 lbs. $1.55; 10 lbs. $2.85; 25 lbs. $6.60; 50 lbs. $12.75—bags included.

Not prepaid, lb. 30 cts.; 10-lb. lots 25 cts. per lb.; 50-lb. lots 23 cts. per lb.; 100-lb. lots 22 cts. per lb.

Chewing's Fescue

A valuable grass for lawns, especially where the soil is light and sandy, as it makes a compact turf. By mail, prepaid, lb. 45 cts.; 5 lbs. $1.85; 10 lbs. $3.45; 25 lbs. $8.10; 50 lbs. $15.75.

Not prepaid, lb. 45 cts.; 10-lb. lots 39 cts. per lb.; 50-lb. lots 29 cts. per lb.; 100-lb. lots 28 cts. per lb.

TIMOTHY

The Most Extensively Grown Hay Grass

For hay, timothy is the best known and most extensively grown of all grasses. A stand is easily established, it is inexpensive to stock and yields its best crop the year after it is sown, but the following crop of hay may be equally heavy as if liberally top-dressed with stable manure or fertilizer. It is a hay crop for all climates and is best for heavy soils, but will grow in all situations, and is a hardy crop, for which reason it has proved the most profitable hay crop grown for market.

Timothy requires good land to make good crops—this applies particularly to timothy, for, unlike other grasses, it does not enrich the soil, so that top-dressing is advised; the fertilizer should contain a liberal proportion of lime. If sown with salping clover the clover will help to supply nitrogen, and

Meadow fescue or Randall grass, red top or herd's grass and salping grass will grow well together at the same time, and are good grasses to sow with it for hay and grazing, increasing the yield of hay and the yield and value of the pasturage. A good mixture is 8 lbs. timothy, 6 lbs. red top or herds grass, 7 lbs. meadow fescue and 5 lbs. salping clover. This mixture will furnish an excellent hay crop by growing clover, timothy and meadow fescue on or low grounds. If timothy and salping clover are sown together, mix 8 lbs. timothy and 3 lbs. salping clover.

Cut timothy when it is in bloom; it is then easier to cut and its feeding value is highest.

Timothy grows best on clay or heavy loam, lowlands and in mountainous districts, but grasses are quite satisfactorily on any good loamy soil, provided there is abundant moisture. Sow 12 lbs. to the acre.

By mail, prepaid, lb. 20 cts.; 5 lbs. 85 cts.; 10 lbs. $1.45; 25 lbs. $3.25; 50 lbs. $6.00—bags included.

Not prepaid, lb. 15 cts.; 10-lb. lots 11 cts. per lb.; 50-lb. lots 9½ cts. per lb.; 100-lb. lots 9¼ cts. per lb., bags extra.

Paspalum Dilatatum (DALLAS GRASS)

This is known in some parts as large water grass. In the far South it makes an all-the-year-round grazing and hay grass. In the cotton section it makes a good grass, but twice a season it is in danger of becoming being better than the first, and makes a green feed and hay of excellent quality. It stands close grazing; it is not too much favored for grazing seen as being one of the best grasses for lands, and is not injured by moderate frosts. It is hardy and thrives on a wide variety of soils except very dry and sandy soils, but prefers a fairly heavy and somewhat moist situation. It withholds many years growth during warm weather, growing 3 to 5 feet high. Starts early in the spring and remains fresh and green till frost; earlier than timothy. It is a perennial, makes a continuous grass in the spring and lasts later in the fall. Below the frost line it is a valuable winter grazing grass. It is usually sown in shallow furrows 4 to 6 feet apart and leave uncovered and in a few years it will cover the field. Sow 6 to 8 lbs. to the acre.

By mail, prepaid, lb. 65 cts.; 5 lbs. $2.70; 10 lbs. $5.05; 25 lbs. $12.10; 50 lbs. $23.75—bags included.

Not prepaid, lb. 55 cts.; 10-lb. lots 47 cts. per lb.; 50-lb. lots 45 cts. per lb.; 100-lb. lots 43 cts. per lb.

Bermuda Grass

Recommended for spring seeding, although in the South it can be sown in the early fall. It is a valuable perennial pasture grass, yielding a good crop of hay on the finest soils, but is one of the best summer lawn grasses. A splendid grass for hill sides, railway embankments, nulli dams, etc., to bind the soil and prevent water run. The ground should be well prepared, as the seeds are small, and should be covered very lightly with a roller or brush harrow to a depth of not more than ¼ inch. By mail, prepaid, lb. 70 cts.; 5 lbs. $2.90; 10 lbs. $5.50; 25 lbs. $13.35; 50 lbs. $26.25—bags included.

Not prepaid, lb. 60 cts.; 10-lb. lots 52 cts. per lb.; 50-lb. lots 50 cts. per lb.; 100-lb. lots 43 cts per lb.—bags extra.

Carpet Grass

Recommended for fall sowing only in the Gulf States, where it does even better than Bermuda Grass on poor sandy soils and maintains a good stand. It is a cheap grass to grow and a pasture grass and stands close grazing and hard trampling.

By mail, prepaid, lb. 45 cts.; 5 lbs. $1.95; 10 lbs. $3.35; 25 lbs. $6.05; 50 lbs. $12.75.

Not prepaid, lb. 40 cts.; 10-lb. lots 33 cts. per lb.; 50-lb. lots 31 cts. per lb.; 100-lb. lots 30 cts. per lb.
Wood’s Special Grass and Clover Mixtures
SOW THEM FOR BIGGER AND BETTER GRASS CROPS

SOWN IN AUGUST OR DURING SEPTEMBER, WILL YIELD FULL CROPS OF HAY OR GRAZING FOLLOWING YEAR

WHY SOW MIXED GRASSES

It is a well-established fact that mixtures containing a number of grasses produce greater yields than if only one or even two grasses are sown. This is demonstrated in nature, for in every old, established pasture you will find many different grasses, each supplying food at its proper season. Beal, in his well-known book, Grasses of North America, says: “It has been repeatedly shown that a judicious mixture of several varieties will produce a larger yield than can be obtained when one variety is sown by itself. Many sorts will occupy the ground more completely than one sort and help keep out the weeds.” Another eminent authority on grasses writes: “I hold this proposition to be indisputable, that any soil will yield a larger and more nutritious crop, if sown with several kinds of grasses than when sown with only one or two species. Indeed it is a well-established fact that a mixture of only two or three grasses and clover will produce a less amount of hay than can be obtained by sowing a larger number of varieties together.” Grasses differ in their manner of growth, some growing in tufts and require other grasses to fill in; they differ in the season when each reaches perfection; they differ in the kinds of soils on which they do best. It is, therefore, necessary to have a thorough knowledge of the character and requirements of each grass in order to make up grass mixtures in proper proportions, suited to different soils, for different purposes and that will give maximum yields of hay or pasturage.

WOOD’S SPECIAL GRASS AND CLOVER MIXTURES are made up from grasses in such proportions as experience has shown are best suited to the different soils and purposes for which they are recommended. Those for permanent pasture are composed of grasses which succeed each other in growth and give a succession from the first of spring till late in the winter; in those for cutting for hay we have combined grasses which ripen together. The different mixtures are composed of grasses and clovers best adapted to the soils and situations for which they are recommended, and in such proportions as experience has proved will produce the best results.

GRASS MIXTURES FOR PERMANENT PASTURE

Sow 30 to 35 pounds to the acre

MIXTURE NO. 1—For light, gravelly or sandy soils
Composed of the following grasses and clovers:

<table>
<thead>
<tr>
<th>Grasses and Clovers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Perennial Rye Grass</td>
</tr>
<tr>
<td>Alsike Clover</td>
</tr>
<tr>
<td>Tall Meadow Oat Grass</td>
</tr>
<tr>
<td>Alfalfa</td>
</tr>
<tr>
<td>Red Clover</td>
</tr>
<tr>
<td>Meadow Fescue</td>
</tr>
</tbody>
</table>

By mail postpaid, 1b. 40 cts.; 5 lbs. $1.50; 10 lbs. $2.75; 25 lbs. $6.35; 50 lbs. $12.25.
Not prepaid, 1b. 30 cts.; 10-lb. lots 24 cts. per lb.; 50-lb. lots 22 cts. per lb.; 100-lb. lots 21 cts. per lb.

MIXTURE NO. 2—For good loam soil
Composed of the following grasses and clovers:

<table>
<thead>
<tr>
<th>Grasses and Clovers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Red Top or Herds Grass</td>
</tr>
<tr>
<td>Red Clover</td>
</tr>
<tr>
<td>Kentucky Blue Grass</td>
</tr>
<tr>
<td>Timothy</td>
</tr>
<tr>
<td>White Clover</td>
</tr>
<tr>
<td>Red Fescue</td>
</tr>
</tbody>
</table>

By mail postpaid, 1b. 40 cts.; 5 lbs. $1.50; 10 lbs. $2.75; 25 lbs. $6.35; 50 lbs. $12.25.
Not prepaid, 1b. 30 cts.; 10-lb. lots 24 cts. per lb.; 50-lb. lots 22 cts. per lb.; 100-lb. lots 21 cts. per lb.

CYCLONE SEED SOWER

The Cyclone is a splendid seed sower that will pay for itself in a few days in the time it will save, besides sowing grass and clover seeds and grain of all kinds faster and more evenly and uniformly than is possible by hand. It will sow as fast as you can walk, and the quantity can be regulated to any amount to the acre.

By mail, postpaid, $2.60. Not prepaid, $2.40.

MIXTURE NO. 3—For heavy loam or clay soils
Composed of the following grasses and clovers:

<table>
<thead>
<tr>
<th>Grasses and Clovers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alsike Clover</td>
</tr>
<tr>
<td>Orchard Grass</td>
</tr>
<tr>
<td>Red Top or Herds Grass</td>
</tr>
<tr>
<td>Kentucky Blue Grass</td>
</tr>
<tr>
<td>Red Fescue</td>
</tr>
<tr>
<td>Italian Eye Grass</td>
</tr>
<tr>
<td>Timothy</td>
</tr>
</tbody>
</table>

By mail postpaid, 1b. 40 cts.; 5 lbs. $1.50; 10 lbs. $2.75; 25 lbs. $6.35; 50 lbs. $12.25.
Not prepaid, 1b. 30 cts.; 10-lb. lots 24 cts. per lb.; 50-lb. lots 22 cts. per lb.; 100-lb. lots 21 cts. per lb.

MIXTURE NO. 4—For moist bottom land
Composed of the following grasses and clovers:

<table>
<thead>
<tr>
<th>Grasses and Clovers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Kentucky Blue Grass</td>
</tr>
<tr>
<td>Red Top or Herds Grass</td>
</tr>
<tr>
<td>Aliskie Clover</td>
</tr>
<tr>
<td>Orchard Grass</td>
</tr>
<tr>
<td>Aliskie Clover</td>
</tr>
<tr>
<td>Meadow Fescue</td>
</tr>
</tbody>
</table>

By mail postpaid, 1b. 40 cts.; 5 lbs. $1.50; 10 lbs. $2.75; 25 lbs. $6.35; 50 lbs. $12.25.
Not prepaid, 1b. 30 cts.; 10-lb. lots 24 cts. per lb.; 50-lb. lots 22 cts. per lb.; 100-lb. lots 21 cts. per lb.

MIXTURE NO. 5—For wet bottom land
Composed of the following grasses and clovers:

<table>
<thead>
<tr>
<th>Grasses and Clovers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Red Top or Herds Grass</td>
</tr>
<tr>
<td>White Clover</td>
</tr>
<tr>
<td>Meadow Fescue</td>
</tr>
<tr>
<td>Timothy</td>
</tr>
</tbody>
</table>

By mail postpaid, 1b. 40 cts.; 5 lbs. $1.45; 10 lbs. $2.65; 25 lbs. $6.10; 50 lbs. $11.75.
Not prepaid, 1b. 30 cts.; 10-lb. lots 23 cts. per lb.; 50-lb. lots 21 cts. per lb.; 100-lb. lots 20 cts. per lb.
HAY MIXTURES

OUR SPECIAL MIXTURES for mowing for hay are composed principally of grasses which ripen together for the first cutting, but they also contain smaller proportions of other grasses which will increase considerably the second cutting, and also add very much to the pasture yield, in case it is desired to use the fields for pasture afterwards.

MIXTURE NO. 6—For light gravelly or sandy soils

Composed of the following grasses and clovers:

- Orchard Grass
- Tall Meadow Oat Grass
- Perennial Rye Grass
- Red Fescue
- Alsike Clover
- Kentucky Blue Grass

By mail, prepaid. 40 lbs.; 5 lbs. $1.50; 10 lbs. $2.75; 25 lbs. $6.75; 50 lbs. $12.50.

Not prepaid, lb. 30 cts.; 10-lb. lots 24 cts. per lb.; 50-lb. lots 22 cts. per lb.; 100-lb. lots 21 cts. per lb.

Wood's Fair Green Mixture

Prepared Especially for the College Campus, Public Square, Baseball Parks, Etc.

Athletic grounds require grasses that will not only form a smooth, thick turf, but they must be grasses that will stand a great deal of rough usage; they must give a good playing surface throughout the year, especially during the summer. For this purpose repeated tests have proved that on public playgrounds, baseball parks, croquet lawns, public squares, the fair green of golf courses, the college campus and school grounds, a mixture which has Bermuda Grass for its base is best adapted. In the South no grass stands more ably, is more drought-resistant than Bermuda Grass, and none make a better summer lawn, but with it other grasses must be sown to have an all-year green growth. Our long experience enables us to offer a mixture splendidly adapted to meet these requirements.

Although put up especially to meet the requirements of athletic grounds, this mixture is recommended for an all-year lawn in sections where Bermuda Grass is dependent on for lawn making.

By mail, prepaid. lb. 45 cts.; 5 lbs. $1.50; 10 lbs. $3.35; 25 lbs. $3.00; 50 lbs. $10.50. Not prepaid, lb. 55 cts.; 10-lb. lots 30 cts. per lb.; 50-lb. lots 28½ cts. per lb.; 100-lb. lots 28 cts. per lb.

MIXTURE NO. 8—For heavy loam or clay soils

Composed of the following grasses and clovers:

- Meadow Fescue
- Red Clover
- Perennial Rye Grass
- Timothy
- Sweet Clover
- Kentucky Blue Grass

By mail, prepaid. 40 lbs.; 5 lbs. $1.50; 10 lbs. $2.75; 25 lbs. $6.75; 50 lbs. $12.50.

Not prepaid, lb. 30 cts.; 10-lb. lots 24 cts. per lb.; 50-lb. lots 22 cts. per lb.; 100-lb. lots 21 cts. per lb.

MIXTURE NO. 9—For moist bottom land

Composed of the following grasses and clovers:

- Red Top or Herbs Grass
- Kentucky Blue Grass
- Italian Rye Grass
- Clover
- Timothy

By mail, prepaid. 40 lbs.; 5 lbs. $1.60; 10 lbs. $3.25; 25 lbs. $6.50; 50 lbs. $11.75.

Not prepaid, lb. 30 cts.; 10-lb. lots 23 cts. per lb.; 50-lb. lots 21 cts. per lb.; 100-lb. lots 20 cts. per lb.

Lawn Grasses

See page 1 of this catalog for a complete description of lawn grasses adapted for all purposes and situations. You will also find directions for making new lawns and for keeping up old ones and the fertilizers you should use.

CAHOO BROADCAST SEED SOWER

This seeder will sow any of the seeds that are usually sown broadcast, such as clovers, grasses, millet, buckwheat, vetch, turnips and all grasses, and will do it more evenly and uniformly than you can possibly seed them by hand. It sows 4 to 6 acres an hour, or about as fast as you walk. The quantity per acre can be regulated for thick or thin seeding as you prefer. Holds 22 cts.

Price, by mail, prepaid. $5.10. Not prepaid, $4.75.
SEED WHEAT

Smooth or Beardless Wheats

It may be that smooth or beardless wheats have a tendency to sport; or a tendency to revert to the variegated type from which they originated, or it may be that a few grains of bearded wheat may be left in the thrasher and, becoming mixed with the smooth wheat, will appear in the crop. Whatever may be the cause, all smooth wheats, even new varieties, like Leap's Prolific, will produce some of the bearded type. In securing our stocks of seed wheats we use every care to have the smooth wheats free from bearded varieties and the bearded wheats free from the smooth kinds, but owing to the varying nature of wheat, it is not always possible to have them absolutely free of mixture.

Leap's Prolific  — Leap's Prolific originated in Virginia, and is particularly well adapted to the Atlantic seaboard. From every section, from Virginia to the Gulf, have come the most enthusiastic reports of large crops and the fine milling quality of the flinty grains. It stands to a greater degree than most varieties, is early to ripen, is a strong grower, stiff strawed and makes fine long heads, all of which make for productivity. By mail, postpaid, peck, $1.10; ½ bushel, $1.35; bushel, $3.55.

Red May  — Red May makes a good, round, plumy bung, has strong straw with well-filled heads, is a good and reliable yielder, and is as free of rust as any wheat grown in the South Atlantic States. It is a thoroughly dependable wheat, with a good reputation for yield, especially on light lands. By mail, postpaid, peck, $1.10; ½ bushel, $1.35; bushel, $3.55.

Certified V. P. I. No. 112  — The Virginia Agricultural Station reports that V. P. I. No. 112 yielded 2 bushels to the acre more than the highest yielding commercial variety they had yet tested, and 4 bushels to the acre more than the average of the three most generally grown wheats. It is a good milling wheat, is disease resistant, stands up well and is especially adapted for growing on light soils. By mail, postpaid, peck, $1.30; ½ bus., $2.35; bushel, $4.30.

Bearded or Longberry Wheats

Bearded or Longberry Wheats make a harder, flintier grain than the smooth wheats, and the millers claim they make better flour and do not hesitate to pay more for them than for smooth wheats. In a large measure this accounts for the disappearance of the old-time prejudice against the beard; besides, the bearded wheat usually runs a few pounds heavier to the measured bushel than the smooth kinds. Bearded wheats usually give better yields than smooth wheat on low ground, stiff lands and good rich soils, and are more resistant to the bad effects of wet weather, the beard being a protection to the grain.

Stoner  — This wheat was discovered in the upper Valley of Virginia, where they grow wheat crops such as are not equaled by any section of the East. It first attracted attention by its wonderful stowing properties, as many as thirty-five or more heads being produced from a single stool. This means that less seed will plant an acre—one-half to three-fourths bushel to the acre is claimed will give as good results as five pecks to the acre with other kinds; our experiences is that a bushel to the acre is the proper quantity. It makes a fine heavy grain of excellent milling quality, and with favorable conditions you will not be disappointed with the yield. By mail, postpaid, peck, $1.10; ½ bushel, $1.35; bushel, $3.55.

Not prepaerd, peck, 65 cts.; ½ bushel, $1.20; bushel, $2.25.

Fulcaster  — Fulcaster originated in the famous Cumberland Valley of Maryland, where a wheat specialist crossed the smooth Fultz with the bearded Lancaster. It has proved a very valuable and popular wheat, so much so that thousands of farmers plant it in preference to all other kinds. It is one of the hardiest and most robust of all the wheats, stands adverse weather conditions remarkably well, and so far has been rust-proof. We regard Fulcaster as a thoroughly reliable wheat, yielding well, the heads are large and well filled, and it is popular with the millers. By mail, postpaid, peck, $1.10; ½ bushel, $1.35; bushel, $3.55.

Not prepaerd, peck, 65 cts.; ½ bushel, $1.20; bushel, $2.25.

Certified V. P. I. No. 131  — Developed by single head selection from the well-known Fulcaster, and at the Virginia Agricultural Experiment Station yielded 2 bushels to the acre more than Fulcaster, which until now has been the best yielder ever tested by the Experiment Station. V. P. I. No. 131 yielded 4 bushels to the acre more than the average yield of the three most widely grown wheats. It does not lodge; it is disease resistant, and is a good miller. By mail, postpaid, peck, $1.25; ½ bushel, $2.20; bushel, $4.05.

Not prepaerd, peck, 80 cts.; ½ bushel, $1.45; bushel, $2.75.

Formalin Prevents Smut  — Smut in grain does serious damage; it reduces the value of the marketable portion of your crop. It can be easily prevented by treating your seeds with Formalin before planting. Spread the grain thinly on the barn floor and with a hand sprayer (see page 39) spray with Formalin mixed with an equal quantity of water; shovel the grain thoroughly and cover with bagging for 4 hours; it is then ready to plant. Not prepaerd, ½ pint, 30 cts.; 1 pint, 50 cts.; quart, 90 cts.; 2 quarts, $1.75; gallon, $2.25. Formalin cannot be sent by mail.
SEED RYE

FACTS ABOUT RYE WORTH KNOWING

Rye will give a crop on land too light and poor for wheat. It will increase the milk flow of the best-fed dairy stock. It furnishes green food earlier in the spring than other grains. Grazing it during the fall, winter and early spring does not materially reduce the grain yield. It is an excellent winter crop to conserve plant food. It improves the condition of the soil when turned under. It is harder than wheat, and can be sown later. It can be sown at the last working of corn and cotton without additional preparation.

Rye is a good crop to grow whether wanted for the grain, for grazing, for green feed, for turning under to improve the mechanical condition of the soil, and for growing as a cover crop to prevent winter leaching of plant food from the land. It will thrive on a greater variety of soils than wheat, does well in dry seasons and on lands too thin, light and sandy to produce a profitable crop of winter wheat.

Rye makes an excellent fall, winter and early spring pasture, and if the stock is taken off early, the grazing can be had without materially reducing the grain crop. Dairy cows may be well fed and giving a good flow of milk, yet when turned on rye for a few days the increase in milk will be astonishing.

For feeding green, rye will furnish green food earlier in the spring than most other forage plants.

As a winter cover crop, rye will prevent the leaching out of the soil expansive plant food that otherwise would be washed off, or be turned down in ample time for the planting of summer crops, and will add humus to the land.

Rye does not demand a complete fertilizer; the most successful farmers prefer 2 to 3 bushels of manure to the acre. Rye can be sown early or late, really adapting itself to your convenience in the time of sowing. It is harder than wheat and can be sown up to a few weeks before freezing weather comes on. Rye can be grazed earlier, as early sowing is recommended in order that the crop may get well established before winter sets in.

PIEDMONT WINTER RYE

For a number of years this rye has been grown in the Piedmont section of Virginia and found particularly well adapted to the heavier lands of that section. However, its adaptability is not confined to Piedmont Virginia, for it has proved its value throughout the western sections of Maryland, Virginia, North and South Carolina, in the heavier uplands of Georgia, and in the mountain districts farther west. To the heavier uplands, Piedmont Rye is as important as Abruzzi Rye is to the lighter lands nearer the seacoast. Its adaptability to these sections is principally because of its extreme hardiness, as it stands the severest winters without injury, but it is successfully grown throughout the entire South.

In our tests, Piedmont made an exceptionally quick spring growth; it matured its crop early, yielded well and made an average growth of about 4 feet. Sown in September, it yielded good grazing in the fall and winter. For mail, postpaid, peck, $1.00; bus., $1.75; buse., $3.25. Not prepaid, peck, 60 cts.; 1/2 bus., $1.10; buse., $2.00.

ROSEN RYE

Rosen Rye makes a splendid cover crop, and when grown on land to which it is suited, makes heavy grain head on thick stiff straw about 5 feet high. It is fine for grazing, although the spring growth is not as early as Abruzzi and Piedmont, nor is the straw as long. For mail, postpaid, peck 85 cts.; 1/2 bus., $1.40; bushel, $2.55. Not prepaid, peck, 45 cts.; 1/2 bus., 75 cts.; bus., $1.30.

FLOWER POTS AND SAUCERS

Special Prices to Florists Using Large Quantities.

POTS AND SAUCERS CANNOT BE MAILED.

Charge will be made for packing at 35 cts. for orders amounting to $4.00 or less. On larger orders, add 10 per cent to amount of order. This barely covers the cost. We pack carefully, but will not be responsible for breakage.

</table>
Oats

Sow 2 bushels to the acre; cover 1 to 2 inches.

What Oats to Sow

If you can get them in during September or early in October we recommend the V. P. I. No. 1 Winter and Virginia Gray Winter—they yield heavy crops, but must be sown early. All the earlier varieties should be grown from November to December. Your selection depending on whether an early or late kind is wanted. The V. P. I. No. 1 Winter and Fulghum are the earliest, and Sow Fulghum for the last crop of the season. Fulghum is ready to cut just after wheat.

Black Winter Oats

V. P. I. Strain No. 1

Sometimes called Hutenos Oats. This oat was originated from a single head selected by the Virginia Agricultural Experiment Station at Blacksburg. They have made exhaustive tests each year. In comparison with other varieties, and it has consistently outyielded, by 5 bushels to the acre, even the Virginia Gray winter, which up to now, has proved the heaviest yielding winter oat.

Its outstanding features are resistance to winter killing; a low per cent of hull and corresponding high per cent of kernel (thus means high feeding value); earliness, maturating about ten days before wheat harvest; heavy stems, making it storm resistant and less liable to blow down; fine yield, one of our Henry County farmers reports an average yield of 78 bushels per acre; a 17-acre field without fertilizer of any kind; size, weight and plumpness of the grain which weighs several pounds more than the standard weight for the measured bushel. With these strong points in its favor. It is no wonder that V. P. I. Black Winter Oats are rapidly becoming a standard variety.

Not prepaid, peck, 45 cents; ½ bushel, 75 cents; bushel, $1.35; 10-bushel lots, $1.30 per bushel.

Texas Red Rust-Proof Oats

In the South Atlantic States Red Rust-Proof Oats have attained a prominent place in farming operations. This is particularly true in the coast region, where other varieties have not proved altogether satisfactory, but where the Red Rust-Proof seems to be especially well adapted to the light, sandy soil of that section. They are vigorous growers, robust and productive, and have heavy heads. They are also preferred for sowing on low grounds and on land where other varieties seem inclined to rust.

Not prepaid, peck, 35 cents; ½ bushel, 60 cents; bushel, $1.05; 10-bushel lots, $1.00 per bushel—bags included.

Sowing Seeds Broadcast

You will never know the ease and speed with which seeds can be broadcast, and how much more evenly and thoroughly it can be done, till you use either a Caanow or a Cyclone Seed Sower. Every farmer should have one. They are described on pages 6 and 7.

Bearded Winter barley

Whether grown for the grain, for hay or for pasture barley has a particular value in the South. The grain contains more protein than either corn or oats; for grazing the abundant growth of fine leaves is succulent and tender as green feed, or cut when in the milk stage and cured for hay it is excellent. There are many places where grasses cannot be successfully grown, but where barley does well and makes a nutritious hay and is easy to cure.

It can be sown in corn and cotton at the last working, no other preparation being necessary; the entire cost would be only the cost of the seeds.

Acre yield—Barley 10 bushels. Barley as its base, both for grazing and for hay can be had by sowing a mixture containing 1 bushel barley, 1 bushel early oats (either V. P. I. Black Winter or Fulghum), ½ bushel 10 lbs. hairy or sand vetch. This quantity will seed an acre. All of these come about the same time, and will furnish excellent grazing as well as a good hay that your stock will relish.

WINTER BARLEY.—By mail, prepaid, peck, 85 cents; ½ bushel, $1.45; bushel, $2.65.

Not prepaid, peck, 50 cents; ½ bushel, 85 cents; bushel, $1.60.

Fulghum Oats

The Earliest of All Rust-Proof Oats. Fulghum oats are not only one of the earliest oats suitable for fall sowing, but one of the most productive. They are ready to cut just ahead of wheat, so the harvesting of the two crops will not conflict; this should be borne in mind when planning your wheat for next year’s harvest season. They are usually ready to cut about the 1st of June, in plenty of time to follow with a summer crop like cow peas, soy or soy beans, millet, sorghum, buckwheat or an early variety of corn.

Productiveness, probably more than any of its other good qualities, has come to the front. We have reports of crops of from 70 to 80 bushels to the acre, a yield that any other oat will find it hard to beat. They stood the stresses of the last winter’s heavy snowfall, nor did they succumb to the mildew of a few years ago. It seems to be the weed that goes well worth considering if the oats are to be cut for hay. In the several years we have handled Fulghum oats we do not recall a single instance of their being killed. By mail, postpaid, peck, 65 cents; ½ bushel, $1.10; bushel, $2.05.

Not prepaid, peck, 45 cents; ½ bushel, 70 cents; bushel, $1.30; 10-bushel lots, $1.25 per bushel—bags included.

Virginia Gray Winter or Turf Oats

If you can get them in early, say in September, it is almost certain that by mid-October, we recommend the Virginia Gray Winter or Fulghum for fall sowing. Proven in numerous experiments in the Maryland Agricultural Experiment Station the fulfillment of Virginia Gray Winter Oats is their extreme hardiness, for there is no other oat that stands up better to the Maryland climate. Another good claim for their popularity is their stooking propensity, which accounts for a part of the heavy yield; one of the agricultural experiment stations reports that they stook more than any oat tested.

They have the further advantage that for no other oat will outweigh them to the measured bushel; it is not unusual to have them weigh 35 to 40 lbs. to the bushel. They are ready to be cut after wheat, allowing a nice arrangement of work at harvest time.

When sown early they make a good growth before winter sets in and furnish excellent grazing without affecting the yield of grain if not grazed too late. Their strong turfting and stooking characteristics give them advantages over most other oats for grazing purposes.

By mail, postpaid, peck, 70 cents; ½ bushel, $1.15; bushel, $2.10.

Not prepaid, peck, 45 cents; ½ bushel, 75 cents; bushel, $1.35; 10-bushel lots, $1.30 per bushel—bags included.

Appler Oats

The Appler is a winter rust-proof oat. It is earlier and harder than the ordinary rust-proof, makes a strong, quick-growing straw, bouncy heads and heavy grain. It has proved to be one of the most reliable winter rust-proof oats for the South.

By mail, postpaid, peck, 65 cents; ½ bushel, $1.05; bushel, $1.90.

Not prepaid, peck, 40 cents; ½ bushel, 65 cents; bushel, $1.15; 10-bushel lots, $1.10 per bushel—bags included.

Wood’s Grain Pasture Mixture

Sow It For An Abundance of Pasturage During the Fall, Winter, Spring and Early Summer.

Wood’s Grain Pasture Mixture is composed of the best grazing varieties of wheat, winter rye, barley, winter turf oats, winter vetch, rape and crimson clover. They are sown in the proper proportion to make an abundance of grazing that will be relished by stock of all kinds. It is of quick growth and will furnish grazing during the winter at a time when such pasturage will be a most welcome boon.

Sow it in the hog lot, or in lots adjacent to the barnyard, and grow an immense quantity of good feed on places that usually produce only weeds. For a quick growing, one-season pasture, it is unsurpassed.

Sow two bushels to the acre in August, September or October.

By mail, postpaid, peck, 80 cents; ½ bushel, $1.40; bushel, $2.50.

Not prepaid, peck, 50 cents; ½ bushel, 90 cents; bushel, $1.60; 10-bushel lots, $1.50 per bushel.
The growing of vetch in the South is growing rapidly, as its merits and value are becoming better known and more appreciated. The fact that it can be sown in corn and cotton at the last working of the ground during the winter, preventing the leaching of valuable plant food; affords splendid grazing in the early spring, and can then be cut for hay or turned under in time to put the other crop of corn or cotton on the same land, should commend it to every farmer in the South.

For Feeding and Grazing It is eaten with relish by all kinds of stock, and its fattening properties are of a high order—a fact that analysis shows it contains 17 per cent of protein. It furnishes splendid grazing during the early spring, and if not grazed too long, will produce a heavy crop of hay. All who are interested in an increased milk production and the fattening of stock will be well pleased with vetch.

Fertilizing Value The United States Department of Agriculture estimates that a ton of vetch hay contains about 50 lbs. of nitrogen and the roots and stubble about one-fourth more. This is about 25 per cent more nitrogen than is contained in a ton of cow-pea hay.

**Yield** A yield of several tons to the acre may seem an exaggeration, but when its wonderful stocking properties are considered the large yield is easily accounted for. As many as twenty vines have been noted growing on a single root, and the vines grow 4 to 5 feet.

**When to Sow** Sow vetch at the last working of corn and cotton or sow during September or October, covering 1 to 1 1/2 inches deep. As the vines grow four to five feet, we recommend that it be sown with Grey Winter Oats to give the vines support. 25 to 30 lbs. vetch and 3/4 bushel oats sows an acre.

**Hairy or Sand Vetch** This is the hardiest of all the vetch varieties. It withstands the severest winters. We have never known it to be winter killed if an early stand is secured. It grows during the open weather in winter and by the middle of March covers the ground. It does especially well on sandy soils, but can be grown on any well-drained land. It is wonderful stocker. They make the tops of the plants stronger and bigger so that they yield more hay and forage, and at the same time they are storing up nitrogen fertilizer in the nodules on the roots of the plants, making the soil richer.

**Oregon Winter Vetch** Not as hardy as the Hairy or Sand Vetch, but in the Carolinas and further South stands the winters splendidly. In Virginia it has not been hurt by cold except during unusually severe winters, when the thermometer fell below 10 degrees. It is of more upright growth and has a wider and smoother leaf than Hairy Vetch; is used for the same purposes, and like it is a nitrogen gatherer.

**Cut Down Your Fertilizer Bills GET YOUR NITROGEN FROM THE AIR**

Nitrogen is the most expensive ingredient in the fertilizers you buy, although it is plentiful in the air. When legume crops are inoculated with FARMOGERM this nitrogen is stored in nodules on the roots in the form of bacteria. These little bacteria working on the roots of the plants do a wonderful thing. They take the nitrogen from the atmosphere and put it into the plant. When we plow this nitrogen back into the soil, it makes the soil richer.

**Dwarf Essex Rape**

Sow it for Fall, Winter and Spring Pasturage for Sheep, Hogs, Cattle and Poultry

Formerly rape was grown especially for sheep and lambs, but it makes an equally good pasture for all kinds of stock. It has been estimated that 70 bushels of green forage per acre that, for fattening, is claimed to be worth, pound for pound, double the value of clover. A State experiment station reports that the lowest average gain on large fed rape alone was a 7 to 8 lbs. per month. Another experiment station recommends the sowing of 3 to 4 lbs. rape to the acre in corn at the last working; this has proved a profitable practice, as an enormous crop can be grown at a cost of 60 to 80 cts. an acre. An acre of rape will easily pasture twenty hogs for two months.

Do not turn stock into a rape pasture when they are hungry, nor when the rape is wet, as it may induce bloating; allow them to remain a day or two, while the first day, and increase the time the succeeding day. Give stock access to salt while feeding on rape; they should also have hay or straw convenient in case of boat.

**CULTURE.**—Sow 1/2 inch deep during August, September, and October, either broadcast or in drills 13 in to 2 ft. apart; when grown in drills and cultivated occasionally the leaves will cover the intervening space and give a more abundant growth. This method is a fine weed killer and favors a larger acre in good condition. 3 to 4 lbs. plants an acre in drills; 8 to 8 lbs. broadcast. Attains its maximum growth in 6 to 8 weeks. By mail, postpaid, 1 lb., 25 cts.; 5 lbs., 80 cts.; 10 lbs., 1 lb. 25 cts.; 25 lbs., 2 lbs. 85 cts.; 50 lbs., 5 lbs. 25 cts.—bags included.

Not prepaid, 1 lb., 15 cts.; 10 lb. lots, 10 cts. per lb.; 50 lb. lots, 8 cts. per lb.; 100 lb. lots, 7 1/2 cts. per lb.—bags extra.
Wood's High Grade Sheep Manure

In the garden, the hot-bed, the cold frame, for fruit trees, in flower beds and pots and on the lawn, Sheep Manure will give most excellent results. On the farm it is very effective on corn, tobacco, grass and forage crops. On wheat and other grains, if mixed with lime and phosphorus, it will produce largely increased yields; it is equally good for potatoes if mixed with kainit or other form of potash.

- 25-lb. bag, $8.50; 50-lb. bag, $15.50; 100-lb. bag, $24.00; 500 lbs., $11.50; ton, $33.00.

Standard Vegetable Fertilizer

Analysis: Ammonia, 3 to 4 per cent; Available Phosphoric Acid, 8 to 10 per cent; Potash, 3 to 4 per cent.

An "all-round" fertilizer prepared for use on vegetable crops of every kind, including root crops which require a liberal quantity of potash. An especially good fertilizer for the home gardener, and for vegetables, it is sized for to the requirements of the home gardener and larger sizes for the market gardener.

- Bag of 50 lbs., $1.15; 100-lb. bag, $1.75; 200-lb. bag, $3.25; ton, $31.00.

Wood's Market Garden Fertilizer

Analysis: Ammonia, 5 per cent; Available Phosphoric Acid, 8 per cent; Potash, 3 per cent.

Prepared especially for market growers who require a quick acting fertilizer to bring their crops to early maturity. Splendid for grass, clover and alfalfa after the first cutting to force a quick and abundant growth of the second crop.

- Bag of 200 lbs., $3.95; ton, $33.00.

Lister's Standard Superphosphate

Made From Pure Animal Bone

Analysis: Ammonia, 3 per cent; Soluble Potash, 1 per cent; Phosphoric Acid, 9 per cent.

A complete fertilizer, containing all the elements of plant food for any crop as a substitute for stable manure or in combination with manure. It is one of the few fertilizers made of pure animal bone, which accounts for its lasting quality, the effects being noticeable in several succeeding crops. In addition to its adaptability for pasture, it is especially recommended for fall crops not to be followed by grass. Bag of 200 lbs., $3.35; ton, $34.00.

Nitrate of Soda

The most quickly available and soluble form of nitrogen or ammonia. Fine for forcing a strong, luxuriant growth in vegetables and strawberries and for applying to grass fields to stimulate growth. It will not affect the food of any plant. If your plants do not thrive, it may be applied to the soil. Six pounds of nitrate of soda will be sufficient for one acre of a growth of the second crop.

- Not prepaid, 5 lbs., $1.55; 10 lbs., $2.55; 25 lbs., $5.15; 50 lbs., $2.00; 100 lbs., $3.60; 200 lbs., $6.75; 1,000 lbs., $33.00; ton, $85.00.

Pulverized Limestone

Lime is necessary on all acid soils to sweeten them and make them productive; lime makes soluble and available as plant food the immense store of inert and insoluble potash and phosphoric acid already in the soil. Lime combines with the ammonia in manure and in the soil, conserves it in a stable form that is immediately available as plant food. We offer pulverized lime for the convenience of our customers.

- 100-lb. bag, 60 cts.; 5 bags for $2.65; 10 bags (1000 lbs.) for $5.00.

Stimulant

A highly concentrated, odorless fertilizer, for the vegetable and flower garden, shrubs and house plants. The analysis is guaranteed 11 per cent nitrogen, 14 per cent phosphoric acid, 15 per cent potash, an ample amount of each plant food to insure a quick and strong growth of all plants, earlier maturity of garden vegetables, and a generous supply of blooms from flowering plants.

NOTE.—Prices quoted are those in effect at time this catalog goes to press. They are subject to change. Such changes will be noted in WOOD'S CROP SPECIAL or will quote prices on request.
### Wood’s Garden Seeds for Fall Planting

**For Complete Descriptions of Varieties see Our Annual Catalog**

#### Asparagus Roots

**CULTURE.** Dig or plow out a trench 15 to 18 inches deep, put in plenty of well-rotted manure, covering it with a few inches of soil, then set the roots 1½ to 2 feet apart and cover with 4 inches of soil. In the fall, cut off the top growth, plow down the earth and give a good application of stable manure. Early in the spring fork this in and apply around animal bone and earth up to blanch the stalks as they grow. Do not continue cutting too long, as this exhausts the plants. 100 roots plant about 15x5 feet; 5,000 to 7,000 will plant an acre.

**FOR FIELD CULTURE.** The rows may be from 4 to 6 feet apart and the roots set further apart in the rows. Break the soil as deeply as possible with a sub-soil plow.

**WASHINGTON.**—The new rust resistant variety bred by the U. S. Department of Agriculture. By mail, postpaid, 40 cts. per dozen; 50 for $1.25; $2.25 per 100. Not prepaid, 50 for $1.25; $2.00 per 100; $15.00 per 1,000.

**PALLONETTO.** Two-year-old roots, 50 for 90 cts.; $1.50 per 100, postpaid. Not prepaid, 50 for 75 cts.; $1.25 per 100; 500 for $4.50; $8.50 per 1,000.

**CONOVER’S COLOSSAL.** Three-year-old roots, 50 for 80 cts.; $1.40 per 100, postpaid. Not prepaid, 50 for 65 cts.; $1.15 per 100; 500 for $4.35; $8.25 per 1,000.

**PLACE YOUR ORDER NOW FOR DELIVERY IN NOVEMBER**

### Garden Beets

**Grow plenty of beets and put them away for use all winter.**

Plant a liberal quantity of beets for fall and winter use; they keep well if packed in slightly moist sand in the cellar or piled on a well-drained place and covered with straw and enough earth to keep out frost. When properly stored fresh beets may be had all winter.

Plant 1 inch deep, in rows 15 to 18 inches apart and thin out to stand 4 inches apart. Germination may be hastened by soaking the seeds for 24 hours before sowing, or by covering the rows with boards to conserve the moisture. All summer plantings should be either soaked or covered, particularly if the weather is dry. One oz. plants 50 feet; 6 to 8 lbs. will plant an acre.

**Wood’s Crimson Globe Beet.** Not.

By Mail, Postpaid. Prepaid.

Wood's Cabbage Seeds for Fall Planting

CULTURE.—For fall and early spring setting, sow from the end of September till the first of January. November and December sowings should be made in cold-frames or hot-beds for protection during the winter. Plants from early fall sowings can be set out the end of October or during November to head up early in the spring. Plants that are wintered over should be set out in February, March or April, as early as the weather will permit. Set the plants 18 inches apart in rows 2½ to 3 feet apart, running the rows east and west and setting the plants on the north side of the ridge to prevent, as much as possible, the frequent freezing and thawing so injurious to cabbage. Requires a good, rich soil, plenty of moisture and a highly ammoniated fertilizer, also frequent deep working. One oz. plants 100 feet; 6 to 8 oz. will make enough plants for an acre.

No. 90. Wood's Extra Early

The Earliest of All Cabbages.

Whether you grow for home use or for market, you should have Wood's Extra Early, for it is the earliest cabbage in cultivation and in every way one of the most desirable extra early varieties. Larger than the Wakefield; not quite as solid, but fully a week earlier. The heads are large, flat and crisp and tender. Especially adapted for the home garden. Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 70 cts.; lb. $2.85, postpaid. Not prepaid, $2.75 per lb.

No. 93. Wood's Selected Early Jersey Wakefield

Wakefield Cabbage is grown in nearly every garden in the South, and among market growers is planted almost entirely for the first early market. This universal popularity is due to the fact that more than ordinary attention be given to the selection of plants for breeding purposes, having in mind earliness, fineness to head, solidity and uniformity. In our Wakefields this careful selection has been critical and continued through many years, and we believe we have as good a strain as can be had—our Jersey and Charleston Wakefields are thoroughbreds. Early, hardy, uniform and make but few outside leaves. Jersey Wakefield makes solid pointed heads of good size and of most excellent quality. Pkt. 5 cts.; oz. 25 cts.; ¼ lb. 70 cts.; lb. $2.60, postpaid. Not prepaid, $2.50 per lb.; 5 lbs. and over, $2.40 per lb.

No. 94. Wood's Charleston Wakefield

All that we say about the purity and excellence of our Jersey Wakefield is equally true of our Charleston Wakefield—it is as pure and true a strain as careful selection can make it. It is a week to ten days later than Jersey Wakefield, equally as solid, but considerably larger; has a less pointed and thicker head. Its earliness, hardiness, size and solidity have contributed to make it one of the most universally grown early cabbages. Pkt. 5 cts.; oz. 25 cts.; ¼ lb. 70 cts.; lb. $2.85, postpaid. Not prepaid, $2.50 per lb.; 5 lbs. and over, $2.40 per lb.

No. 95. Early Flat Dutch

—For a second early to follow Jersey Wakefield this is in every way satisfactory for it is one of the most reliable medium-early varieties. A sure header, makes large, flat, solid heads that in point of quality are the equal of any. Has comparatively few outside leaves. Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 80 cts.; lb. $2.10, postpaid. Not prepaid, $2.00 per lb.; 5-lb. lots and over, $1.90 per lb.

No. 91. Copenhagen Market

A strong statement, but proved true by eleven years' test. Its chief features, besides earliness, are remarkable size, averaging ten pounds; solidity, compactness and even maturity. Fine grained, tender, hearts pure white and of exceptionally good quality. Pkt. 5 cts.; oz. 25 cts.; ¼ lb. 80 cts.; lb. $2.85 postpaid. Not prepaid, $2.75 per lb.

No. 99. Early Drumhead

—Very popular throughout the South, and well deserves its popularity, for it makes a most excellent, sure-heading second early cabbage of as fine quality as anyone could wish. The heads are large, flattened on top, solid, crisp and tender. Especially adapted for the home garden. Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 60 cts.; lb. $2.10 postpaid. Not prepaid, $2.00 per lb.

No. 96. All Head Early

—A thoroughbred, especially recommended for its uniform size and shape and reliability for heading. Makes a deep, flat head, solid and uniform in color, shape and size. In tenderness it is unsurpassed. Its compactness allows closer planting and more heads to the acre than the varieties of a more spreading habit. Pkt. 5 cts.; oz. 25 cts.; ¼ lb. 70 cts.; lb. $2.60, postpaid. Not prepaid, $2.50 per lb.
No. 97. All Seasons—Heads very large and round, often nearly spherical, but usually somewhat flattened. Very solid and of the best quality, keeping as well as the winter sorts; sure-heading. Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 65 cts.; lb. $2.50 postpaid. Not prepaid, $2.25 per lb.

No. 100. Henderson's Succession—A splendid sort whether grown for medium early, mid-season, or late crop, and keeps well for winter. A little later than Early Summer, but much better. Heads deep and solid, of handsome color and of the finest quality. The heads become solid before they are fully matured. Pkt. 5 cts.; oz. 25 cts.; ¼ lb. 70 cts.; lb. $2.60; postpaid. Not prepaid, $3.50 per lb.

No. 98. Henderson's Early Summer—Although introduced a number of years ago, it still holds its place as an ideal second early cabbage. Forms large, flat, round, solid heads weighing 8 to 10 lbs., and is a sure and reliable header. Comes in about 10 days after Early Jersey Wakefield and is larger. Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 60 cts.; lb. $2.10; postpaid. Not prepaid, $2.00 per lb.; 5 lb. lots and over $1.20 per lb.

LATE CABBAGE

By Mail, Postpaid—Pkt. Oz. ¼ lb. Lb.
No. 103. Large Late Flat Dutch ........... 05 .20 .60 2.00
No. 102. Surehead .... 05 .20 .60 2.00
No. 106. Dutch Ballhead or Holland 05 .20 .60 2.00
No. 105. Large Late Drumhead .... 05 .20 .60 2.00
No. 104. Wood's Prize Head Late Flat Dutch 05 .20 .65 2.25
No. 107. Perfection Drumhead Savoy .... 05 .20 .65 2.25
No. 108. Red Mammoth .... 05 .20 .65 2.25

CABBAGE PLANTS.—Late varieties can be had up to September 15th. 45 cts. per 100; 500 for $1.85, postpaid. Not prepaid, 35 cts. per 100; $3.00 per 1,000. Planted October and November, 45 cts. per 100, postpaid. Not prepaid, 35 cts. per 100; $3.00 per 1,000.

No. 114. Chinese Petsai or Cut Cabbage—A wonderful salad plant, growing 15 to 16 inches high, somewhat resembling cos lettuce or probably more like swiss chard. It yields an unusual amount of most excellent salad. Cut up like cabbage and serve with mayonnaise or French dressing, or boil like cabbage and serve with cream sauce. It is without the stringy flavor and odor of cabbage. The heads blanch to a crystalline white; whiter than lettuce and more beautiful than cabbage—every leaf is delicate and tender.

No. 85. Broccoli—If you have not been successful with cauliflower try broccoli; it is easier to grow. Similar to cauliflower, but taller, the heads more divided, and will stand greater extremes of temperature. Cultivate like cauliflower. One ounce produces about 2,000 plants. Pkt. 10 cts.; oz. 40 cts.; ¼ lb. $1.00.

No. 87. Brussels Sprouts—On the stalks are produced small cabbage-like heads that are as great a delicacy as cauliflower. Transplant 1½ feet apart and cultivate like late cabbage. In the fall break off the leaves to give the heads more room. Hard frosts improve the flavor; easily grown; a delicious dish. Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 60 cts.; lb. $2.10, postpaid. Not prepaid, $2.00 per lb.

GARDEN BEANS or SNAPS

Beans should be planted every two weeks until August 15th for succession. Further South they may be planted even late. Allow seven or eight feet between rows to make the best crop. In the garden, plant 2 inches deep, 2 inches apart in rows 2 feet apart; for field culture, the rows should be 2½ to 3 feet apart.

For Full Descriptions, See Our Spring Catalog.

GREEN PODDED VARIETIES

No. 10. Wood's Earliest Red Valentine—By mail post- cts.; ¼ lb. 20 cts.; lb. 35 cts.; 2 lbs. 60 cts.; 5 lbs. $1.20; 10 lbs. $2.05. Not prepaid, lb. 25 cts.; 2 lbs. 45 cts.; 5 lbs. 95 cts.; 10 lbs. $1.70; 100 lbs. $15.00.

No. 13. Bountiful or Early Six Weeks—The finest early flat podded stringless green bean. By mail postpaid, pkt. 10 cts.; ¼ lb. 20 cts.; lb. 35 cts.; 2 lbs. 60 cts.; 5 lbs. $1.30; 10 lbs. $2.25. Not prepaid, lb. 25 cts.; 2 lbs. 45 cts.; 5 lbs. $1.05; 10 lbs. $1.90; 100 lbs. $17.00.

No. 14. Giant Stringless Green Pod—There is no better for the home garden and canning. By mail postpaid, pkt. 10 cts.; ¼ lb. 20 cts.; lb. 35 cts.; 2 lbs. 60 cts.; 5 lbs. $1.20; 10 lbs. $2.20. Not prepaid, lb. 25 cts.; 2 lbs. 45 cts.; 5 lbs. 95 cts.; 10 lbs. $1.70; 100 lbs. $15.00.

No. 15. Burpee's Stringless Green Pod—Pods round and brittle. By mail postpaid, pkt. 10 cts.; ¼ lb. 20 cts.; lb. 35 cts.; 2 lbs. 60 cts.; 5 lbs. $1.30; 10 lbs. $2.25. Not prepaid, lb. 25 cts.; 2 lbs. 45 cts.; 5 lbs. $1.05; 10 lbs. $1.90; 100 lbs. $17.00.

No. 18. Rustless Golden Wax—The handsomest pods are nearly 4 inches long; stringless and tender. By mail postpaid, pkt. 10 cts.; ¼ lb. 20 cts.; lb. 35 cts.; 2 lbs. 60 cts.; 5 lbs. $1.30; 10 lbs. $2.25. Not prepaid, lb. 25 cts.; 2 lbs. 45 cts.; 5 lbs. $1.05; 10 lbs. $1.90; 100 lbs. $17.00.

No. 26. Rustless Golden Wax—The handsome pods are nearly 4 inches long; stringless and tender. By mail postpaid, pkt. 10 cts.; ¼ lb. 20 cts.; lb. 35 cts.; 2 lbs. 60 cts.; 5 lbs. $1.30; 10 lbs. $2.25. Not prepaid, lb. 25 cts.; 2 lbs. 45 cts.; 5 lbs. $1.05; 10 lbs. $1.90; 100 lbs. $17.00.

No. 28. Pencil Pod Black Wax—The best strain of black wax; bears for a long sea- son. By mail postpaid, pkt. 10 cts.; ¼ lb. 20 cts.; lb. 35 cts.; 2 lbs. 60 cts.; 5 lbs. $1.25; 10 lbs. $2.15. Not prepaid, lb. 25 cts.; 2 lbs. 45 cts.; 5 lbs. $1.00; 10 lbs. $1.80; 100 lbs. $16.00.

WAX PODDED VARIETIES

No. 31. Hudson Wax—A wonderful yielder. By mail post- cts.; ¼ lb. 20 cts.; lb. 35 cts.; 2 lbs. 60 cts.; 5 lbs. $1.25; 10 lbs. $2.05. Not prepaid, lb. 25 cts.; 2 lbs. 45 cts.; 5 lbs. 95 cts.; 10 lbs. $1.70; 100 lbs. $15.00.

No. 29. Round Pod Brittle Wax—A fine bean for the bearers. By mail postpaid, pkt. 10 cts.; ¼ lb. 20 cts.; lb. 35 cts.; 2 lbs. 60 cts.; 5 lbs. $1.30; 10 lbs. $2.25. Not prepaid, lb. 25 cts.; 2 lbs. 45 cts.; 5 lbs. $1.05; 10 lbs. $1.90; 100 lbs. $17.00.

No. 35. Currie's Rust-Proof—Vigorous, hardy and pro- ductive variety. By mail postpaid, pkt. 10 cts.; ¼ lb. 20 cts.; lb. 35 cts.; 2 lbs. 60 cts.; 5 lbs. $1.25; 10 lbs. $2.15. Not prepaid, lb. 25 cts.; 2 lbs. 45 cts.; 5 lbs. $1.00; 10 lbs. $1.80; 100 lbs. $16.00.
CARROT

For winter use plant in July or August in a rich, deeply-worked soil, 1/2 inch deep in drills 12 inches apart, and thin out to 5 or 4 inches apart. Germinates more freely if soaked for several hours before sowing. Sow a few radish seeds in the same row—they germinate more quickly and serve to mark the rows. Put away for winter, cut off the tops to within an inch of the crown and pack in sand in the cellar, or pit them outdoors and cover with straw and 6 or 8 inches of earth to prevent freezing. In this way they may be kept all winter.

CAULIFLOWER

Cauliflower requires the same treatment and cultivation as cabbage. Not quite as hardy, either in resistance to dry, hot weather or to cold weather, but where they can be watered during dry spells or protected during the late fall and winter they make a very satisfactory crop. Can be sown in July and August for heading up during the fall, or sown in cold-frames in the fall and set out early in the spring.

No. 128. Wood's Earliest Snowball

—There is no better cauliflower for Southern growers and our strain is as fine as can be had at any price. Not only early to head, but it has a remarkably sure header, making large, solid, perfect, pure white heads of the finest quality. As well adapted for forcing as for growing out of doors. Pkt. 15 cts.; 1/4 oz. 55 cts.; 1/2 oz. $1.00; oz. $1.75; 1/4 lb. $6.00; lb. $22.00.

No. 129. Extra Early Dwarf Erfurt

—A first-class cauliflower, ranking next to our Snowball. Produces large, white, close, firm heads of fine quality. It is extra early and a sure header. Pkt. 10 cts.; 1/4 oz. 45 cts.; 1/2 oz. 85 cts.; oz. $1.50; 1/4 lb. $5.50; lb. $29.00.

No. 130. Autumn Giant

Admirably adapted for growing in the fall. The heads are large and white and remain long fit for use. Pkt. 10 cts.; 1/2 oz. 50 cts.; oz. 50 cts.; 1/4 lb. $1.50; lb. $5.00.

No. 138. CURLED CRESS

Can be planted either in the spring or fall. The plants are cut and tied in bunches like water cress. Sow in drills one foot apart. One ounce will plant 200 feet of drill. Pkt. 5 cts.; oz. 10 cts.; 1/4 lb. 25 cts.; lb. 80 cts. postpaid. Not prepaid, 70 cts. per lb.

SEEDS FOR THE GARDEN

COLLARDS

One of the most popular Southern vegetables, largely used in place of cabbage. It is harder and grows larger than cabbage, may be grown on poorer soil and withstands insect attacks better. Although often sown during the spring and summer, the principal sowings are made in June, July and August. Transplanted 2 feet apart in the row and given frequent cultivation. A most excellent vegetable for the late fall, winter and early spring. The flavor is improved by frost. Cultivate like late cabbage.

No. 143. NORTH CAROLINA SHORT STEM

—A decided improvement, and has proved very popular wherever grown. Has short stem, large spreading leaves, very hardy, withstanding drought in summer and cold in winter. Its flavor and cooking qualities are the very best. Pkt. 5 cts.; oz. 15 cts.; 1/4 lb. 40 cts.; lb. $1.35. Not prepaid, $1.25 per lb.

No. 145. WHITE, or CABBAGE COLLARD—Called cabbage-collard because of its bunching habit and its Southern vegetable to a cabbage. Extremely hardy and grows on the poorest soils. As white and crisp as a cabbage. Pkt. 5 cts.; oz. 12 cts.; 1/4 lb. 35 cts.; lb. $1.10 postpaid. Not prepaid, $1 per lb.

No. 146. GEORGIA or SOUTHERN

—The well-known and popular collard that has been grown for generations in the South. Pkt. 5 cts.; oz. 10 cts.; 1/4 lb. 25 cts.; lb. 85 cts. postpaid. Not prepaid, 75 cts. per lb.

CORN SALAD or FETTICUS

Sometimes called Lamb's Lettuce. A very delicate salad that can be served like lettuce or cooked like spinach. Sow in drills one foot apart, cover the seeds half an inch deep, press the soil firmly and give it the same cultivation as for spinach.

No. 148. LARGE SEEDED—By mail, postpaid, pkt. 5 cts.; oz. 15 cts.; 1/4 lb. 30 cts.; lb. $1.35. Not prepaid, $1.25 per lb.

ENDIVE

An appetizing and delicious salad that should be in every garden.

Culture.—Sow in August in 18-inch drills and thin out to one foot apart. When nearly grown, tie up the outer leaves to Blanch the heart. In dry seasons give plenty of water.

No. 210. GREEN CLENDENDON CURLED, Pkt. 5 cts.; oz. 20 cts.; 1/4 lb. 60 cts.; lb. $2.10 postpaid. Not prepaid, $2.00 per pound.
KALE or BORECOLE

Culture. — The Siberian and Scotch are the popular sorts for fall sowing. Sow from Aug. 15th to Oct. 15th, either broadcast or in drills 18 inches apart, and give some cultivation, and they will yield greens throughout the winter. Spring or Smooth Kale may be sown either in the fall or spring, making greens earlier than the winter sorts. Sow 8 lbs. per acre broadcast, 4 to 5 lbs. in drills.

**Early Curled Siberian Kale.**

No. 219. Early Curled Siberian **EARLY KALE or DWARF GERMAN GREENS.** — A hardy, vigorous, spreading green kale, with a distinctive bluish tinge. So hardy that it will stand the winter without protection and make rapid growth in the spring. The leaves are beautifully curled all around the edges and retain their crisp, fresh appearance long after cutting. Slow to run to seed. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 25 cts.; lb. 75 cts. prepaid. Not prepaid, 65 cts. per lb.; 5 lbs. and over, 60 cts. per lb.

No. 221. Dwarf Curled Scotch or Norfolk **THE most beautiful variety.** Makes a quick and large growth; leaves of a bright, deep green color, exquisitely curled and crisp; very hardy. Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 20 cts.; lb. 90 cts. prepaid. Not prepaid, 80 cts. per lb.; 5 lbs. and over 75 cts. per lb.

No. 222. Spring or Smooth Kale **Largely sown in the fall for cutting during the winter and spring before the winter kinds are ready.** Pkt. 5 cts.; ¼ lb. 10 cts.; lb. 30 cts.; 5 lbs. for $1.15, postpaid. Not prepaid, 80 cts. per lb.; 10 lbs. for $1.75.

HORSE RADISH ROOTS

25 cts. per doz.; 50 for 65 cts.; $1.00 per 100; prepaid. Not prepaid, 20 cts. per doz.; 90 cts. per 100; 500 for $4.00; $7.50 per 1,000.

LEEK

No. 227. Large Flag **Sow in September and transplant in the fall or early spring.** Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 60 cts.; lb. $2.00 postpaid. Not prepaid, $1.50 per lb.

PEAS FOR THE FALL CROP

Plant peas in August or early in September to make a crop in October or November. Late summer plantings are very successful and bear when peas from spring plantings are gone. Plant 2 to 3 inches deep; deep planting lengthens the bearing season.

**Chinese Broad Leaved Mustard.**

**MUSTARD**

CULTURE. — Sow during September or October or in February, March or April, either broadcast or in rows six inches apart. Sow 1 ounce to 80 feet of drill, or broadcast 5 to 6 lbs. per acre.

No. 225. Early White Vienna **— Combines the flavors of the cabbage and turnip and makes a splendid dish if used when roots are 2 to 3 inches thick, when they are very tender and delicate. Also makes a fine stock food, yielding 300 to 400 bushels per acre. For late use, sow in drills from June to September, thinning out to 8 inches apart.** Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 65 cts.; lb. $2.35 postpaid. Not prepaid, $2.25 per lb.

No. 229. Southern Giant Curled **—The most popular mustard with Southern growers. It forms a great mass of leaves beautifully ruffled and finely curled and crimped around the edges; succulent, pungent and of sweet flavor.** Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 35 cts.; lb. $1.00 postpaid. Not prepaid, 90 cts. per lb.

No. 229. Chinese Broad Leaved **— When prepared like spinach makes fine greens. Ready in six weeks from sowing; tender and free from bitter flavor.** Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 30 cts.; lb. 55 cts. postpaid. Not prepaid, 75 cts. per lb.

PEPPER

**Giant Pimento.**

Combines the flavors of the cabbage and turnip and makes a splendid dish if used when roots are 2 to 3 inches thick, when they are very tender and delicate. Also makes a fine stock food, yielding 300 to 400 bushels per acre. For late use, sow in drills from June to September, thinning out to 8 inches apart.

Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 65 cts.; lb. $2.35 postpaid. Not prepaid, $2.25 per lb.

No. 229. Southern Giant Curled **— The most popular mustard with Southern growers. It forms a great mass of leaves beautifully ruffled and finely curled and crimped around the edges; succulent, pungent and of sweet flavor.** Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 35 cts.; lb. $1.00 postpaid. Not prepaid, 90 cts. per lb.

No. 229. Chinese Broad Leaved **— When prepared like spinach makes fine greens. Ready in six weeks from sowing; tender and free from bitter flavor.** Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 30 cts.; lb. 55 cts. postpaid. Not prepaid, 75 cts. per lb.

PEPPER

**Giant Pimento.**

Combines the flavors of the cabbage and turnip and makes a splendid dish if used when roots are 2 to 3 inches thick, when they are very tender and delicate. Also makes a fine stock food, yielding 300 to 400 bushels per acre. For late use, sow in drills from June to September, thinning out to 8 inches apart.

Pkt. 5 cts.; oz. 20 cts.; ¼ lb. 65 cts.; lb. $2.35 postpaid. Not prepaid, $2.25 per lb.

**LETTUCE**

**CULTURE.** — Lettuce is easy to grow, but requires rich, moist soil, clean and thorough cultivation, and plenty of water to give it that quick growth on which depends its tenderness and flavor. Sow in July or August, transplant as soon as ready, and they will head up late in the fall. For later use transplant to cold-frames or protect during severe spells, and they will head up during November and December. Plant the hardy varieties, like Wood's Cabbage and Big Boston, in September and October, transplanting outside later. Protect with straw or litter, and they will stand the winter and head up early in the spring, or they can be transplanted to cold-frames or hot-beds to head up during the winter. Wood's Improved Big Boston is fine for early fall planting; Wood’s Cabbage is better for later planting, as it is hardier and stands more cold weather. One ounce will produce about 1,500 plants.

### No. 230 Wood’s Cabbage Lettuce

**HARDEST AND BEST LETTUCE FOR OUTDOOR GROWING**

We introduced Wood's Cabbage Lettuce 40 years ago, and in all these years we have not found its equal for fall sowing. We do not hesitate to say it is the best of all lettuces for wintering outdoors in the South. No lettuce will stand cold weather better. Makes a fine, large, firm, well-blanced head of excellent quality and sweet buttery flavor. Pkt. 5 cts.; oz. 25 cts.; 1/4 lb. 75 cts.; lb. $2.50 postpaid. Not prepaid, $2.25 per lb.

**No. 239. Crisp-as-Ice —** A very superior family and home lettuce, and ideal for market summer lettuce; so crisp, tender and sweet flavored. Especially adapted for sowing thickly in rows and cutting when the plants are young. Should be grown in every home garden. Very slow in sowing to seed. Pkt. 5 cts.; oz. 25 cts.; 1/4 lb. 50 cts.; 1 lb. $2.10, postpaid. Not prepaid, $2.00 per lb.

**No. 235. Early Curled Simpson —** A sure cropper even under adverse conditions. Makes a well-blanched, curly, loose head; early crisp and tender and sweet flavored. Especially adapted for sowing thickly in rows and cutting when the plants are young. Should be grown in every home garden. Very slow in sowing to seed. Pkt. 5 cts.; oz. 25 cts.; 1/4 lb. 50 cts.; 1 lb. $2.10, postpaid. Not prepaid, $2.00 per lb.

**No. 238. Grand Rapids —** Among the curled lettuces there is no better for forcing, and it does splendidly outdoors if sown in the fall or early spring. Does not form a head, but large compact clusters cramped around the heads; crisp and tender. One of the easiest lettuces to grow under glass. Pkt. 5 cts.; oz. 25 cts.; 1/4 lb. 70 cts.; 1 lb. $3.25, postpaid. Not prepaid, $3.25 per lb.

**No. 242. Iceberg —** No lettuce is more crisp, especially in the large ribs, which are cutely broken up on the stalks; more reliable and tender even in summer. Especially fine for the home garden. Pkt. 5 cts.; oz. 20 cts.; 1/4 lb. 90 cts.; 1 lb. $3.35 postpaid. Not prepaid, $3.35 per lb.

### No. 231 Wood’s Improved Big Boston

**THE LETTUCE FOR COLD FRAMES**

Too much praise cannot be given our grand strain of this splendid lettuce. It has steadily gained in popularity until now it is more extensively grown than all other varieties except our Wood’s Cabbage Lettuce. May be grown in the open ground for summer and fall use, or in frames under canvas, and always makes large, fine, buttery heads with thoroughly blanched hearts, crisp and tender, white and sweet. It gives the best of satisfaction under all possible conditions. Pkt. 5 cts.; oz. 23 cts.; 1/4 lb. 75 cts.; lb. $2.60, postpaid. Not prepaid, $2.50 per lb; 5-lb. lots and over, $2.40 per lb.

**No. 233. California Cream Butter —** Does well everywhere and in all seasons. Very hardy, and especially recommended for outdoor growing. One of the most buttery flavored and best in quality; makes a large solid head with rich light yellow hearts, tender and buttery. Pkt. 5 cts.; oz. 25 cts.; 1/4 lb. 70 cts.; lb. $2.35 postpaid. Not prepaid, $2.25 per lb.

**No. 232. May King —** A handsome, extra early lettuce with well-blanched, golden hearts that are tender and buttery. Makes large solid heads, 2 inches in diameter with thorough, broad, light green outer leaves folded closely to make a fine, attractive, solid head. Does well even in cold, damp weather. A particularly fine lettuce for early planting in the home garden and for market. Pkt. 5 cts.; oz. 25 cts.; 1/4 lb. 70 cts.; lb. $2.35 postpaid. Not prepaid, $2.25 per lb.

**No. 236. Improved Hanson —** One of the best summer lettuces. It makes a large, solid, compact head, exceedingly crisp, tender and sweet, and blanched well; extremely slow to show color and the plant grows in the winter splendidly out of doors. Pkt. 5 cts.; oz. 25 cts.; 1/4 lb. 75 cts.; lb. $2.60 postpaid. Not prepaid, $2.50 per lb.

**No. 237. Summer Allheart —** No lettuce can compete with Allheart for heading in hot weather and make such large, tender, crisp and finely blanched heads; nor is there a summer lettuce of better quality. Especially good for spring and fall planting and stands the winter splendidly out of doors. Pkt. 5 cts.; oz. 25 cts.; 1/4 lb. 75 cts.; lb. $2.60 postpaid. Not prepaid, $2.50 per lb.

**No. 240. Cos, or Romaine —** Has no equal for quality. Forms long conical heads, which if tied up blanched a pure white and as crisp as celery stalks. Does not yellow in hot weather. Pkt. 5 cts.; oz. 20 cts.; 1/4 lb. $1.00, postpaid.

**No. 241. Chicken Lettuce —** Unlike any lettuce you have ever grown. It does not make a heart but sends up a stalk three to four feet high fairly covered with leaves. You can either cut off the stalk or put up the leaves; in either case it keeps on growing and will yield more green food even than rape. Although called Chicken Lettuce and recommended especially for chicke, it can be fed to any variety of stock and can be grown as economically and produced in even greater abundance than any of the green crops up to date. An ounce of seeds will produce as much green food as the average flock of chickens can consume. Pkt. 10 cts.; oz. 35 cts.; 1/4 lb. $1.25 postpaid.

**LETTUCE PLANTS** Ready September, October and November—Wood’s Cabbage and Big Boston, 45 cts. per 100 postpaid. Not prepaid, 35 cts. per 100; $3.00 per 1,000.
HOW TO GROW ONIONS.—Sow in a well-prepared seed bed in August or September, and when the plants are of the size of a goose quill transplant 4 inches apart in 12-inch rows, trimming the tops and roots. Don’t fail to transplant; it is not unusual to double the yield by transplanting, large onions weighing two pounds and over being grown by this method. For fall sowing we recommend Prize Taker, Mammoth Silver King, Copper King, and Early White Pearl. These kinds in particular are benefited by the transplanting method. For transplanting ounce sows 100 feet of drill; 5 to 6 lbs. will transplant an acre.

Spanish or Italian Onions

No. 308. Prize Taker or Spanish King

—Large and of particularly fine flavor. The flesh pure white, sweet, mild and tender. Ripens up fine and hard and makes a very handsome, attractive onion. A good keeper when thoroughly ripened. Pkt. 5 cts.; oz. 25 cts.; ½ lb. 60 cts.; lb. $2.10, postpaid. Not prepaid, $2.00 per lb.

No. 309. Extra Early White Pearl

—The quicksorts. Makes large, pearly white onions, tender, mild and of excellent flavor. Sow in the fall to make large white onions early in the spring. Early spring planting is necessary to make sets for putting out in the fall. Pkt. 5 cts.; oz. 25 cts.; ½ lb. 75 cts.; lb. $2.60 postpaid. Not prepaid, $2.50 per lb.

No. 307. Copper King

Attains an enormous size. Single onions having been grown weighing four pounds. The skin is a reddish color; flesh white, very sweet, mild and tender. Enormous crops may be grown by following the transplanting method described above. For a big crop of fine, large mild onions that will keep well if thoroughly ripened, you can depend on Copper King. Pkt. 5 cts.; oz. 20 cts.; ½ lb. 60 cts.; lb. $2.10 postpaid. Not prepaid, $2.00 per lb.

No. 310. Mammoth Silver King

—one of the earliest and largest of Italian onions. Fruit growing 5 to 7 inches in diameter; it is not unusual to grow them weighing two to three pounds each. Attractive shape, flattened but thick. Skin is a clear silvery white; flesh pure white, mild, sweet and tender. They grow quickly, mature early and make an attractive onion; a combination of earliness, large size, fine quality and mild flavor. Pkt. 5 cts.; oz. 25 cts.; ½ lb. 75 cts.; lb. $2.60 postpaid. Not prepaid, $2.50 per lb.

No. 302. Yellow Globe Danvers

—The best known and most largely grown yellow onion. Perfectly round in shape, the bulbs are medium to large size, averaging about 2 inches in diameter, for, being globeflavored, have small necks and ripen evenly. The skin is light yellow; flesh is creamy white, crisp and mild in flavor. A fine keeper, matures early and is universally recommended for general crop. Early and even ripening, attractive, uniform shape, good keeping quality and mild flavor. Pkt. 5 cts.; oz. 15 cts.; ½ lb. 45 cts.; lb. $1.60 postpaid. Not prepaid, $1.50 per lb.

No. 303. Silver Skin or White Portugal

—a beautiful pure white onion of good size, largely used for growing matured sets for sets, and spring and for use as a salad and in salads. The flesh and skin are clean white, very mild and sweet. It makes a nice, firm, hard onion, one that will keep. The small bulbs make as good a pickling onion as the White Pearl. Pkt. 75 cts.; ½ lb. 80 cts.; lb. $2.85 postpaid. Not prepaid, $2.75 per lb.

No. 301. Large Red Wethersfield

—The most generally grown and best known red variety. The bulbs are large, somewhat flattened; skin purplish red; flesh purplish white; very hard and solid; an excellent keeper and a heavy cropper. A good onion for poor and dry soils. Pkt. 5 cts.; ½ lb. 55 cts.; lb. $1.85 postpaid. Not prepaid, $1.75 per lb.

Onion Sets for Fall Planting

See Wood’s Crop Special for Prices by the Bushel

CULTURE.—All varieties may be set out in the fall. Plant 4 inches apart in rows 1 foot apart and about 1 inch deep, but do not cover the sets entirely, except Potato Onions, which plant 9 inches apart in rows 15 inches apart and covered 1 inch deep. Fall planting has proved quite uniformly successful.

EXTRA EARLY WHITE PEARL

—An extra good onion for fall planting; extra early, pure white, mild and delicate flavor. They grow large and come in earlier than any other. Pkt. 75 cts.; ½ peck 85 cts.; peck $1.45, prepaid. Not prepaid, $1.35 per peck.

SILVER SKIN

—Makes silvery white, mild and sweet onions. Qt. 35 cts.; ½ peck 85 cts.; peck $1.40, postpaid. Not prepaid, $1.30 per peck.

YELLOW DANVERS

—The most popular of all yellow onions. Qt. 30 cts.; ½ peck 50 cts.; peck $1.30, postpaid. Not prepaid, 30 cts.; ½ peck 60 cts.; peck $1.00.

YELLOW POTATO (Yellow Dublin, or Hill Onion)

—Makes a large onion of mild flavor and excellent quality. Of a redish yellow color and a good keeper. Never makes seed, but benefits by the root, one medium-size and for home use, and very popular throughout the South. Small sets (about the size of a hulled walnut). Qt. 40 cts.; ½ peck $1.10; peck $1.60, postpaid. Not prepaid, 50 cts.; ½ peck 80 cts.; peck $1.50.

WHITE MULTIPLIER

—Differ from the Yellow Potato Onion in color, being pure white and not as large, but is very productive, of finest flavor and a better keeper. Qt. 35 cts.; ½ peck 50 cts.; peck $1.50, postpaid. Not prepaid, 30 cts.; ½ peck 60 cts.; peck $1.20.

WHITE BERMUDA

PARSLEY

For spring sow sow 1/2 inch deep in September or October and give slight protection, or sow in cold frame or hot-bed for winter use. Germinates slowly. Soak for 24 hours before sowing.

No. 314—Champion Moss Curled: strawn; beautifully curled and crimped, and is the best for garnishing and flavoring cut up about 2 inches. It starts new growth that will be better curled and a brighter color. Makes an ornamental plant for edging walks. Pkt. 5 cts.; oz. 10 cts.; lb. 25 cts.; postpaid 75 cts. Not prepaid, 65 cts. per lb.

No. 315—Plain or Single: stronger flavored; color very dark green; fine for flavoring soups, stews and for drying. Pkt. 5 cts.; oz. 10 cts.; 1/4 lb. 25 cts.; lb. 75 cts. postpaid. Not prepaid, 65 cts. per lb.

No. 389—White Strasbourg.. 5c 10c 25c 75c 65c
No. 390—Long Radishes, Mixed.. 5c 10c 25c 75c 65c

WINTER RADISHES

Winter Radishes are slower in growth than other radishes, but the flesh is firm and they are better keepers. This variety is not so dependent on quick growth as with other sorts, but they should have a good, light, mellow soil. The best for sowing Aug. 15 to Sept. 20 is half an inch deep in rows 18 to 24 inches apart and thin out. When freezing weather comes on take them up and pack in sand in a cool cellar or bury them outside, and they will keep all winter. One ounce sows 50 feet of drill; 8 to 10 pounds sows an acre.

No. 393—Rose China Winter—Cylindrical in shape; of medium size; bright deep rose-colored skin. The flesh is white, very solid and of the very finest quality. The most popular of all the winter radishes. A fine winter keeper. Pkt. 5 cts.; oz. 10 cts.; 1/4 lb. 25 cts.; lb. 75 cts. postpaid. Not prepaid, 65 cts. per lb.

No. 392—Chinese or Celestial—Always crisp, mild and juicy, and undoubtedly the finest of all extra large, pure white radishes. Grows from 12 to 15 inches long and fully 5 inches thick. Pkt. 5 cts.; oz. 10 cts.; 1/4 lb. 25 cts.; lb. 80 cts. postpaid. Not prepaid, 70 cts. per lb.

VEGETABLE PLANTS

We supply all kinds of vegetable plants in their proper seasons. Lettuce is sown during July and August; radishes, early August; early cabbage during October and November. Whenever we cannot supply the varieties ordered, we will send a variety as closely resembling it as possible.

LATE CABBAGE—By mail 45 cts. per 100 postpaid. Not prepaid, 60 cts. per 100. EARLY CABBAGE—By mail 45 cts. per 100 postpaid. Not prepaid, 55 cts. per 100; 100 cts. per 1000. LATE LETTUCE—By mail 45 cts. per 100 postpaid. Not prepaid, 60 cts. per 100; 100 cts. per 1000. EARLY LETTUCE—By mail 45 cts. per 100 postpaid. Not prepaid, 55 cts. per 100; 100 cts. per 1000. SAGE—By mail postpaid, 20 cts. each; $1.50 per doz. Not prepaid, 25 cts. each; $2.00 per doz. THYME—By mail postpaid, 20 cts. each; $1.50 per doz. Not prepaid, 25 cts. each; $2.00 per doz. ASPARAGUS ROOTS—See page 15.

Rhubarb Roots—In November set out 4 feet apart in rich soil in a shaded place, using plenty of stable manure. Keep the ground loose and mulch with straw or leaves so as to retain the moisture. Protect with manure during winter. By mail postpaid, 25 cts. each; 3 for 65 cts.; $2.00 per doz. Not prepaid, 20 cts. each; 3 for 50 cts.; $1.50 per doz.

SPINACH

For fall sowing in August or September; for winter or spring sow from the end of September till December—one inch deep in drills 18 to 24 inches apart. Requires little culture. Two ounces will sow 100 feet of drill; 12 to 15 lbs., one acre.

No. 403. Long Season—A splendid spinach, forming a rosette of intense dark green, thick, tender, succulent, crumpled leaves, which remain fresh long after cutting. No other variety will stand so long without running to seed. Oz. 8 cts.; 1/4 lb. 15 cts.; 1 lb. 40 cts. postpaid. Not prepaid, 30 cts. per lb.; 10-lb. lots, 25 cts. per lb.

No. 404. Early Acme—This makes a cluster of thick, dark green, slightly wrinkled leaves of the finest quality. Oz. 8 cts.; 1/4 lb. 15 cts.; 1 lb. 40 cts. postpaid. Not prepaid, 30 cts. per lb.; 10-lb. lots 25 cts. per lb.

Keep Your Garden Busy. Grow vegetables in all vacant rows in your garden. If you don't, Mother Nature will grow weeds, for the ground is always busy and might as well grow something worth while. The fall and winter garden can be as important as the spring garden if you make it so.

Rhubarb Roots—See above.
**TURNIP AND RUTABAGA**

CULTURE.—Sow the early sorts in July or August, the later sorts during August, and the salad varieties during August and September. Sow either broadcast or in drills 2 feet apart, thinning out to 4 inches, and roll the ground after sowing. Sow rutabagas in July and early August, and earth up as they grow.

TO KEEP FOR WINTER.—Store in a cool cellar and cover with sand to keep them fresh, or they may be put into pits or boxes in the ground. Select a well drained situation on which to plant the turnips; cover with a few inches of straw and sufficient earth to keep out frost. Thus protected, they keep into the winter.

One ounce sows 100 feet of drill; 1½ pounds sow one acre in drills; 2 pounds one acre broadcast; sow salad varieties 3 pounds to an acre.

**Milan Turnips**—The Milans leave nothing to be desired in the way of an early garden turnip. They are at least a week earlier than any other; have small tops, so that the rows can be planted close together. The flesh is clear ivory white; the skin is perfectly smooth. They are without an equal for the table, being of the most delicate flavor. Medium size, flat shape.

**No. 446. EXTRA EARLY PURPLE TOP MILAN.**—White with purple top. Pkt. 5 cts.; oz. 12 cts.; ¼ lb. 30 cts.; lb. 85 cts. prepaid. Not prepaid, 75 cts. per lb.

**No. 450. Wood’s Improved Red Top White Globe**

**No. 447. EARLY RED, or PURPLE TOP (Strapleaved).**—Flat; white with purple top; firm, finely grained and tender; one of the best early garden turnips. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**No. 448. EARLY WHITE FLAT DUTCH.**—One of the best for the family garden; sweet and tender. Makes an excellent pure white turnip of fine quality; very early. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**No. 451.—LONG WHITE COWHORN.**—A very productive, quick growing turnip of excellent quality, fine grained and very sweet. Often grows twelve to fifteen inches long. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**No. 452. WHITE EGG**.—A quick-growing, egg-shaped, smooth, pure white variety with small tops. Flesh sweet, firm and mild. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**No. 453. LARGE WHITE NORFOLK GLOBE.**—Makes large round white roots, excellent for table or stock; also quite largely used as winter salad. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**No. 454. POMERANIAN WHITE GLOBE.**—Extra large Pomeranian round, white; fine for table White Globe and stocker. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**No. 455. WHITE SWEET GERMAN.**—Fine for table and stock; hard, large; yields and keeps a good keeper. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**No. 456. PURPLE TOP YELLOW ABERDEEN.**—A splendid keeper; flesh is yellow, very solid, tender and sweet. Hardy and a good yielder; fine table turnip. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**No. 457. LARGE AMBER, or YELLOW GLOBE.**—Of large size, globe-shaped, solid yellow flesh. Fine for table and stock; a fine keeper. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**No. 458. GOLDEN BALL, or ORANGE JELLY.**—One of the sweetest and best yellow turnips; hardy; flesh is firm and of most excellent flavor. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**SALAD VARIETIES**

**No. 459. SOUTHERN PRIZE, or DIXIE.**—Hardy and needs no protection; the most popular turnip grown for winter and spring salad. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 40 cts.; lb. $1.20 prepaid. Not prepaid, $1.10 per lb.

**No. 460. SEVEN TOP.**—A very hardy variety, grown exclusively for salad. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 35 cts.; lb. $1.10 prepaid. Not prepaid, $1.00 per lb.

**RUTABAGA or SWEDEN**

CULTURE.—Sow in July, or early in August, in drills; thin out and keep clear of weeds. See under head of turnip culture for directions for storing for winter.

**No. 465. WOOD’S IMPROVED PURPLE TOP YELLOW.**—An improved strain of the finest yellow-fleshed rutabagas grown from roots selected for large size, uniformity in shape and fine quality. Hardy, a sweet variety, good keeper and the best shaped and most productive. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 55 cts. lb.

**No. 466. PURPLE TOP YELLOW.**—The old standard variety; largely grown for table and stock. A large yielder; good keeper; fine for table turnip and sweet and solid. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.

**No. 453. LARGE WHITE NORFOLK GLOBE.**—Makes large round white roots, excellent for table or stock; also quite largely used as winter salad. Pkt. 5 cts.; oz. 10 cts.; ¼ lb. 20 cts.; lb. 55 cts. prepaid. Not prepaid, 45 cts. per lb.
FLOWER SEEDS FOR FALL SOWING

In the South perennials, biennials and hardy annuals may be sown outside in the fall. These sowings make finer plants, earlier, larger and more brilliant blooms. Perennials and biennials bloom the next summer, advancing the blooming season a year. Annuals should have a slight covering in extreme weather; tender perennials should be carried through winter in the house.

Prepare the ground as fine, smooth and level as a rake will make it; plant in rows so the young plants may be easily seen; cover lightly—a good rule is to cover four to six times the diameter of the seeds; very fine seeds should be pressed into the soil.

For Full Descriptions See Our Annual Catalog

HARDY PERENNIALS and BIENNIALS

ADLUUMA or Allegheny Vine.—No. 554, pkt. 10c.

ALYSSUM.—No. 558, Saxatile, pkt. 10c.

PLANT IN THE FALL FOR THE EARLIEST AND LARGEST BLOOMS

Pansy Mixtures

No. 902, Wood’s Royal Pansy Mixture.—A magnificent mixture, excelling in an endless variety of the richest colors, which, with the large size and perfect form, make it indeed a "royal mixture." It contains every conceivable color and color combination found in pansies. Pkt. 10cts.; ½ oz. 50cts.; ¼ oz. 85cts.; ½ oz. $1.50; oz. $2.50.

No. 903, Wood’s Exhibition Pansy Mixture.—The richest and handsomest pansy mixture in existence. It contains seeds saved from the finest specimen plants grown by eminent pansy specialists, making a mixture as near perfect as it is possible to obtain. The blooms average to 3 inches across, of every imaginable pansy color and combination of colors, some fine-spotted, others margined, veined, blotted and mottled in endless variety. Pkt. 25cts.; 3 pkts. 65cts.; ¼ oz. $1.00.

No. 904, Wood’s Superb Frilled Pansy.—Each petal is frilled or curled, giving the appearance of a double pansy. This unusual formation adds greatly to its keeping quality. Our mixture contains all the newest introductions. Pkt. 20cts.; 3 pkts. for 50cts.

No. 905, Giant Trimandeau.—A distinct strain with remarkably large blooms, generally marked with large blotches; the petals, large and varied. Pkt. 10cts.; ¼ oz. 35cts.; ¼ oz. 60cts.; ½ oz. $1.00.

No. 906, Mixed Pansies.—Large Flowering.—A very superior mixture of all colors, shades and markings; rich and beautiful. Pkt. 5cts.; ¼ oz. 40cts.; ½ oz. 75cts.

TENDER PERENNIALS

BEGENIA VERNON.—No. 625, pkt. 15cts.

CHRYSANTHEMUM.—No. 672, Japanese, pkt. 20cts.

GERANIUM.—No. 766, pkt. 15cts.

WOOD’S ROYAL PANSIES

Saved from plants selected for the beauty and size of their blooms, our aim being variety and brilliancy of colorings, strong marking, abundance of bloom and long keeping qualities. Fall sowings produce earlier, larger and more brilliant blooms than spring sowings. They will stand the severest winter without protection. Grow them in a shady position in a rich, moist soil.

Pansies in Separate Colors

Each, pkt. 8cts.; ½ oz. 40cts.; ¼ oz. 65cts.

No. 890. Cardinal.—Brilliant brownish red, very striking.

No. 891. Emperor Frederick.—Dark red, with orange scarlet border.

No. 892. Fairy Queen.—Sky blue, with pure white border.

No. 893. Faust, or King of the Blacks.—Large, velvety, pure black.

No. 894. Fire King.—Golden yellow, the upper petals reddish brown, margined with yellow; very showy.

No. 895. Light Blue.—Lovely shade of sky blue, with dark eye; very dainty.

No. 896. Lord Beaconsfield.—The lower petals are violet shading to white, tinted with purple in the upper petals.

No. 897. Silver Edged.—Dark purple with a distinct white edging; very attractive.

No. 898. Snow Queen.—Beautiful, large, pure white; flowers large and of fine form.
ABRONIA.—No. 550. Pkt. 5c.; 1/4 oz. 30c.  
ACROCLINUM.—No. 552. Pkt. 5c.; 1/4 oz. 30c.  
AGERATUM.—No. 555, Mexicanum. Pkt. 5 cts.; 1/4 oz. 15 cts.; 1/2 oz. 25 cts.  
ALYSSUM.—

CHRYSAanthemum  
ESCHSLOTZIA.—No. 754. Pkt. 5c.; 1/4 oz. 15c.  
FEVERFEW.—No. 759. Pkt. 5c.; 1/4 oz. 15c.
Wood's Giant Sweet Peas

In November or December plant 4 to 6 inches deep, giving slight protection, and they will become well rooted and grow at the first opening of spring and yield an abundance of bloom earlier and longer than if planted in the spring. Use plenty of well-rotted manure and don't gather the blooms grudgingly—the more you pick them, the longer and better they will bloom.

Sweet Peas in Separate Colors

Spencer Sweet Peas

**All Varieties**—Pkt. 10c; oz. 30c; 1/4 lb. 90c; lb. $3.00, postpaid.

- **No. 1035. Constance Hinton.**—Deepest of all the white Spencers for growing out of doors. When first open the flowers have a tint of pink, but they change to pure white. The flowers are large, the vines are strong growers.
- **No. 1026. Dobbies Cream.**—The flowers are deep cream, are of unusual size, very much waved or crimped, the standards sometimes being double. A strong grower and profuse bloomer. Our assortment of Spencers would not be complete without it.
- **No. 1043. Elfrida Pearson.**—Lovely blush pink, beautifully shaded. When young the pink color seems to have a bronze sheen. A large and magnificent flower, a fine bloomer, frequently bearing four blooms to the stem.
- **No. 1037. Piercy Cross.**—Without doubt the most brilliant red Spencer. Glitters in the bright sunshine with a glowing fire-like sheen. Does not sunburn even in the hottest weather; the color deepens with age.
- **No. 1038. Hercules.**—A splendidly done, rich pink waved flower, often more than two inches across. Very much like the original Countess Spencer, but a much finer and larger flower.

- **No. 1039. King Edward Spencer.**—The most popular crimson Spencer. The color is rich, deep and beautiful. A strong flower that never burns nor fades.
- **No. 1040. Miriam Beaver.**—Soft shell pink or cream pink, overlaid with hydrangea blue. Exceptionally large and waved and sometimes double; does not sunburn. An exquisite and dainty flower.
- **No. 1034. R. F. Pelton.**—Bears the largest blooms and is the finest of all the lavender Spencers. The color is an exquisite soft lavender with a slight suffusion of pink.
- **No. 1044. Royal Purple.**—The name well describes the color—a rich royal purple. It is without doubt the finest purple Spencer ever yet introduced.
- **No. 1041. Warrior.**—Rich deep, pure maroon flushed with bronze. The blooms are remarkably large and finely waved. Loosely doing shades will appreciate this fine flower.
- **No. 1042. Wedgewood.**—A wonderfully beautiful shade of light blue. The long stout stems rarely bear fewer than four daintily waved or frilled blooms. A sturdy grower and free bloomer.

Grandiflora Sweet Peas

**All Varieties**—Pkt. 5c; oz. 15c; 1/4 lb. 40c; lb. $1.40, postpaid.

- **No. 1056. King Edward VII.** (Crimson Scarlet).—Bright red or crimson scarlet; the flowers are of the largest size.
- **No. 1057. Lady Gisel Hamilton (Lavender).**—The largest and best of the lavender varieties; have a slight tint of mauve.
- **No. 1055. Lord Nelson or Brilliant Blue (Navy Blue).**—A fine deep, dark, rich navy blue; very attractive and the best of the dark blue kinds.
- **No. 1050. Primula Donna (Pure Pink).**—A clear and soft pink; the stems are sturdy and strong and usually bear three blooms.

Sweet Peas in Mixture

**No. 1027. Wood's Special Mixture.**—A peerless mixture of grandiflora varieties and absolutely the finest that can be made. No dull colors, all choice grandiflora varieties of every color, the colors being evenly distributed throughout. In diversity of color, size and beauty of flowers no other grandiflora sweet pea mixture can surpass our "Special Mixture." Pkt. 5c; Flats 35c; 1/4 lb. 1.25, postpaid.

**No. 1028. Wood's Superb Spencer Mixture.**—The newest type, differing from the grandiflora in having waved or fluted standards. The stems are 12 to 14 inches long, usually bear 3 or 4 blooms which, under favorable conditions, measure two inches across. Our mixture covers a wide range of colors from pure white to the deepest sweet pea colors. Pkt. 10 cts.; oz. 20 cts.; 1/4 lb. 50 cts.; lb. $1.00, postpaid.

**No. 1029. Large Flowering Mixture.**—A very good mixture of standard grandiflora varieties that will give a pleasing display. The colors are not as well balanced as in our "Special Mixture." Pkt. 5 cts.; oz. 10 cts.; 1/2 lb. 25 cts.; 1 lb. 75 cts., postpaid.

**No. 1030. Perennial or Everlasting Sweet Peas.**—These live year after year, bearing magnificent clusters of flowers early in the spring before the annual kinds. No flowers are set out. Mixed colors. Pkt. 10 cts.; 1/2 oz. 35 cts.; oz. 60 cts.

**No. 1031. Cupid Sweet Peas.**—Distinct from other sorts; 6 to 8 inches high, blooms and is the finest of all the lavender Spencers. The color is an exquisite soft lavender with a slight suffusion of pink. Very neat, compact, bushy, with flowers as large and fragrant as the tall kinds. Fine for pots, borders, and beds. Pkt. 5 cts.; oz. 20 cts.; 1/4 lb. 60 cts.; lb. $2.00, postpaid.
HYACINTHES

The First Flowers of Importance to Bloom in the Spring. Produce Beautiful Spikes of Bloom, Strikingly Attractive in Their Richness and Variety of Color.

CULTURE IN POTS.—Use any good rich soil, mixed with a little sand, potting so as to leave the top of the bulb even with the soil. For a single plant use a 4 or 5-inch pot, but the effect will be prettier if three, six or as many as a dozen are planted together in a larger size pot, and still more effective if all are of one color. The soil should be pressed firmly around the bulbs, but do not pack it hard underneath. After potting, water thoroughly and place in some cool, dark place for four or five weeks, watering once about every ten days, enough to keep the soil moist.

A still better plan is to sink the pot in the earth about six inches, covering with soil, choosing some position where they will not get too much water. For a succession of bloom, bring the first out about December 1st, and every two weeks thereafter until February 1st. The room in which they are to flower should be only moderately warm, and when they begin to bloom, give plenty of water, and as much fresh air as possible. Too much heat has a tendency to dry up the flower and greatly decrease the blooming period.

CULTURE IN OPEN GROUND.—Any good garden soil will suit Hyacinths, and the depths at which they are planted should be determined by the character of the soil. If clay or very heavy, bulbs should not be covered more than three inches; if light, from four to six inches. They should be protected with manure, leaves or coarse litter to keep them from freezing.

Wood's Exhibition Hyacinths

SINGLE VARIETIES

A Selection of the Best Hyacinths in Cultivation—Single Hyacinths Give Larger Flowers and Make Larger Spikes Than Double Hyacinths.

20 cts. each; $2.00 per dozen; $12.50 per 100, postpaid. Not prepaid, $1.90 per dozen; $12.00 per 100.

Alba Superbissima.—A very fine white; tall.
Grandeur a Merveille.—Blush White; large.
Grand Vedette.—Pure white, very large bells.
La Grandeolle.—Extra fine; pure white.
L'Illusoire.—Tall spike; pure white.
Snowball.—Pure snow-white; fine, large bells.
Baron von Thuny.—Dark blue.
Czar Peter.—Clear Porcelain blue.
Maitre.—Deep porcelain-blue.
La Peyrouse.—Delicate lavender.

Marie.—Rich purple; enormous truss.
Queen of the Blues.—Clear, sky-blue.
Garibaldi.—Brilliant carmine.
Gen. Pelissier.—Deep crimson; fine truss.
Gertrude.—Fine, dark pink; very large bulb.
Norma.—Delicate flesh-colored pink.
Robert Steiger.—Fine, large, bright red.
Ida.—Pure yellow; fine spike.
King of the Yellows.—Fine, bright, yellow.
Yellow Hammer.—Fine, rich golden yellow.

COLLECTION OF ONE OF EACH OF THE ABOVE TWENTY KINDS, $3.00 POSTPAID. NOT PREPAID, $2.75.

Double Varieties

This List Embraces The Very Finest Varieties in Cultivation.

20 cts. each; $2.00 per dozen; $12.50 per 100, postpaid. Not prepaid, $1.90 per dozen; $12.00 per 100.

La Tour d'Auvergne.—Pure white and the earliest double white.
La Virginie.—Very large; creamy white.
Prince of Waterloo.—White, rose center; large spike.
Royal Bouquet.—Pure white; flowers borne on long stems.
Bouquet Tendre (Waterloo).—Very fine dark red.
Bouquet Royal.—Bells borne on long stems; salmonpink.
Grootroup.—Peach-blossom pink; good truss.

Lord Wellington.—Extra fine blush pink; immense bells, early.
Holidays.—Light blue, of a beautifully marbled appearance.
Garrick.—Azure-blue; large compact spike.
Van Spey.—Bright, lavender-blue.
Rembrandt.—Dark porcelain-blue; splendid spike; late.
Bouquet Orange.—Reddish yellow; small spike.
Goethe.—Light yellow; one of the best double yellows.
Minerva.—Fine orange-yellow, extra large flower.

COLLECTION OF ONE OF EACH OF ABOVE FIFTEEN KINDS, $2.25, POSTPAID. NOT PREPAID, $2.15.

Miniature, or Dutch Roman Hyacinths

Excellent for growing in pots, pans or boxes, blooming freely and early. May be planted close together in pots or pans, or in beds in open ground. We offer choice varieties as follows:

Grandeur a Merveille.—Blush white.
La Grandesse.—Pure white.
Gertrude.—Pink.

Baron von Thuny.—Dark blue.
Queen of the Blues.—Light blue.
Gen. Pelissier.—Red.

Prices by mail, 8 cts. each; 80 cts. per dozen, postpaid. Not prepaid, dozen, 70 cts.; 100 for $5.00.
Wood’s Superior Hyacinths

In Separate Colors

WOOD’S SUPERIOR HYACINTHS in separate colors can be sold at considerably less price than where it is necessary to keep and name each individual bulb separately. These bulbs are all good-sized flowering bulbs much larger than the ordinary mixed Hyacinths, and give excellent satisfaction for general forcing, for cut flowers, or outdoor garden blooming in beds or borders.

White Roman Hyacinth — Dutch Grown

We have succeeded in having some of these bulbs grown for us by one of the best growers in Holland. They are similar to the regular Romans, but not quite as early.

Prices: By mail, 10 cts. each; $1.00 per dozen, postpaid. Not prepaid, 90 cts. per dozen; $7.00 per 100.

NAMED LARGE FLOWERING CROCUS

Flowers much larger and borne in greater profusion than in mixed sorts. These bloom well in the house, planted two inches apart in shallow boxes of loamy soil.

CULTURE OUT OF DOORS

For bedding, Tulips make one of the most attractive and showy flowers for the garden. The variety of colors and earliness to bloom make them particularly desirable. For preparing soil for Tulips, care should be taken to have it so shaped that it will shed water and the soil should be worked deep and made rich. Plant the bulbs from 3 to 4 inches deep, acceding to the softness of the soil, and from 4 to 6 inches each way. Treat the bed same as outdoor culture for Hyacinths, giving protection with a covering of leaves or coarse manure. Every year or two take bulbs up and replant, as they work themselves too deep to bloom well.

CHOICE MIXED TULIPS

**WOOD’S SPECIAL MIXED DOUBLE.**—Composed entirely of named sorts, proportion of bright colors, all blooming together, an unexcelled mixture. 60 cts.; $3.50 per dozen; $3.25 per 100, prepaid.

**WOOD’S SPECIAL MIXED SINGLE.**—An extra fine mixture, composed entirely of named sorts of brightest colors, blooming together. 50 cts. per dozen; $2.75 per 100, prepaid. Not prepaid, 40 cts. per dozen; $3.00 per 100.

PARROT TULIPS

The flowers of the Parrot Tulip are very peculiarly formed; the petals are all curiously slashed, while the colors are very fine and attractive. Chiefly used for outdoor planting, and also desirable for baskets, etc. They will stand a little forcing late in the season. Excellent for cutting.

Prepared Plant Fibre—The most satisfactory way of growing all spring bulbs for house and table decoration. It is better than soil for bulbs and plants for indoor growing, and can be used in bowles, jardinieres, fern dishes, etc., without drainage. By mail, postpaid, 25 cts. pkg.; 50 cts. half peck; 90 cts. peck; $1.00 half bushel; $2.75 bushel. Not prepaid, 30 cts. pkg.; 40 cts. half peck; 70 cts peck; $1.25 half bushel; $2.25 bushel.

The Tulip Bulbs gotten from you in December are in full bloom now and are perfectly exquisites. They have lots of colors that I have never seen in Tulips before and have been admired by every one that sees them. Mrs. E. B. Spencer, King William County, Va., 5-25-24.

I want to say that the Narcissus Bulbs I bought of you are the prettiest ever had, they just came out fine have been blooming since Christmas and still in blossom. They are two feet tall. The Hyacinth bulbs are growing, not yet large enough to bloom. Mrs. T. B. Hope, Hanover County, Va., January 30th, 1924.
**Giants Darwin Tulips**

These gorgeous new late or May flowering Tulips are very stately and beautiful, producing immense flowers on tall, sturdy stems attaining a height of from two to three feet, and bearing on long stems beautiful globular flowers of remarkably heavy texture, in a large range of colors. They embrace almost every conceivable tint in rose, heliotrope, claret, maroon, crimson and other rich and rare shades. Unsurpassed for bedding and cutting.

The sorts offered below were selected out of a large collection as being the best and most distinct.

**Woods’ Special Mixed Darwin Tulips.**—Composed mostly of named sorts, and contains a great variety of all colors and shapes. 60 cts. per dozen; $3.50 per 100, postpaid. Not prepaid, 50 cts. per doz.; $3.25 per 100.

**Dutch Breeder Tulips**

Similar in habit to the Darwins and flower at the same time. They produce immense blooms, borne on long stiff stems. The colors include many rare among flowers and run principally in the purple, maroon and terra cotta shades. These tulips are very valuable for the garden, producing by their refined colors a most artistic effect. Plant and treat like the Darwins.

**GIANT WHITE NARCISSUS**

The Most Satisfactory Winter Blooming House Plant

They will bloom in water and rocks from six to eight weeks from time of planting, and are superior to Chinese Lilies or any other Narcissus for growing in water. The flowers are larger, more attractive in color and very fragrant. A very unique, simple and novel way to grow them is to place six or eight bulbs in a shallow glass or china bowl with water; support the bulbs with pebbles or gravel as you would the Chinese Lily, and place the bowl in the dark until the roots have started, when you should bring them to the light. Cans the water occasionally to keep it pure. Planted in September or October, can be easily brought into flower by Christmas.

Each, 12 cts.; dozen, $1.00; 100, $7.00, postpaid. Not prepaid, 90 cts. per dozen; $3.50 per 100.

**RISING SUN NARCISSUS**

This is a yellow Narcissus exactly like the Giant White, except the flowers are a rich yellow instead of white and a little later in blooming than the Giant Whites. Excelent for growing in water and rocks, and when grown this way will bloom in from eight to ten weeks from the time they are planted. Plant six or eight bulbs in a china or glass bowl and give the same treatment as Giant Whites. Our stock of these is limited, so we advise our customers to order early. Large bulbs, each, 15 cts.; dozen, $1.25, postpaid. Not prepaid, $1.15 per dozen; $6.50 per 100.

**DOUBLE SACRED LILY (Roman Narcissus)**

To be grown in water and rocks the same as the Chinese Sacred Lily. The flowers are white with double yellow center and are free bloomers, early and very fragrant.

Each, 10 cts.; dozen, $1.00, postpaid. Not prepaid, 90 cts. per dozen; $6.50 per 100.

**CHINESE SACRED LILY**

Splendid for House Growing in Bowls of Water

One of the most satisfactory and easily forced of all bulbs, attaining such rapid growth and luxuriant development that you can almost see them grow. The bulbs are of immense size, each producing ten to fifteen flower stalks and bearing a profusion of large, delicately-scented blooms; white, with orange cup. They can be grown in pots of earth, but are more novel and ornamental in shallow bowls of water, pebbles or small shells being placed under and around the bulb. Each, 20 cts.; 3 for 50 cts.; $1.75 per dozen, postpaid. Not prepaid, 15 cts. each; $1.50 per doz.
NARCISSUS, DAFFODILS AND JONQUILS

Among early spring flowers these are in the front rank of popularity. Appearing just after winter, they animate our gardens with masses of gold and silver, while their fragrant blossoms in the home are invaluable for decorative purposes.

CULTURE IN POTS.—Treatment same as for tulips in pots. The Polyanthus varieties are the earliest blooming and can be forced as easily as Roman Hyacinths.

CULTURE OUT OF DOORS.—All varieties of Narcissus should be grown in clumps and patches in every suitable spot and there is not a spot where grass will grow in which Narcissus will not succeed. In planting, be guided by the size of the bulb, allowing 4 to 5 inches between small sorts and 6 to 8 inches between large varieties. The bulbs will soon completely fill the space, forming a compact mass and it is then their flowers are produced the most freely. Plant the bulbs about 3 inches deep, according to the size of the bulb. The Polyanthus varieties require slight protection.

POLYANTHUS, or BUNCH-FLOWERED NARCISSUS

These are generally used for forcing and bear large clusters of delicately scented flowers—white, orange, yellow, etc. They are of earliest culture, succeeding well inside or outside. Protect from covering of manure or straw if planted outside.

PAPER WHITE GRANDIFLORA.—These are excellent for growing in water; larger flowers and clusters than Paper White. Planted any time in September, can easily be brought into flower by Christmas. 8 cts. each; 70 cts. per dozen; $4.50 per 100, postpaid. Not prepaid, 60 cts. per dozen; $4.00 per 100.

MIXED POLYANTHUS.—A number of very fine varieties mixed together, producing very pleasing effects in pots or out of doors. 80 cts. per dozen, postpaid. Not prepaid, 70 cts. per dozen; $5.00 per 100.

DOUBLE FLOWERING NARCISSUS

Alba Plena Odoranta.—A double, pure white variety; with exquisitely scented flowers; excellent for outside planting: cannot be forced. 60 cts. per dozen, postpaid. Not prepaid, 50 cts. per dozen.

Incomparablis (Eggs and Bacon).—Full double flowers of rich yellow and orange; excellent for house and outside planting. 70 cts. per dozen postpaid. Not prepaid, 60 cts. per dozen; $4.50 per 100.

Von Son.—Rich golden yellow, with double trumpet; one of the best forcing sorts and used in immense quantities for florists; an excellent garden sort. 75 cts. per dozen postpaid. Not prepaid, 65 cts. per dozen; $5.00 per 100.

Double Mixed.—All shades and colors. Excellent for growing in masses for garden decoration. 60 cts. per dozen, postpaid. Not prepaid, 50 cts. per dozen; $3.50 per 100.

JONQUILS, or SINGLE TRUMPET VARIETIES

Empress.—A magnificent large variety, pure white, with yellow trumpet, bold and erect, and the best of the two colored trumpets. Each 12 cts.; $1.00 per dozen, postpaid. Not prepaid, 90 cts. per dozen; 100; $8.50.

Golden Emperor.—One of the finest Daffodils in cultivation. Flower of richest yellow; trumpet of immense size, the petals of the paranth being 3½ inches across. Mammoth Bulbs twice the size of those usually sold: Each, 15 cts.; $1.25 per dozen; $8.50 per 100. Not prepaid, 15 cts. per dozen; $1.15 per dozen; $8.00 per 100. Large Bulbs—Each, 15 cts.; $8.00 per 100. Large Bulbs—Each, prepaid, 90 cts. per dozen; $4.50 per 100.

Golden Spur.—Splendid large, bold flowers of rich yellow color; excellent for pots or gardens; early and free flowering. Each, 12 cts.; $1.00 per dozen, postpaid. Not prepaid, 90 cts. per dozen; $4.00 per 100.

Leedsii.—A very pretty pure white variety, with star-like flowers; it is free-blooming, fine for forcing or outside and delicately scented. 60 cts. per dozen, postpaid. Not prepaid, 50 cts. per dozen; $2.75 per 100.

Posticus (Pheasant's Eye, or Poet's Narcissus).—Pure white flower, with orange cup, edged with deep crimson. Beautiful for outside planting; splendid cut flower. Owing to its great beauty, this variety has never failed to please, 50 cts. per dozen, postpaid. Not prepaid, 50 cts. per dozen; $3.00 per 100.

Single Mixed.—In all shades, varieties and colors. Made up of named sorts. Excellent for growing in masses for garden decoration and fine for cut flowers. 60 cts. per dozen, postpaid. Not prepaid, 50 cts. per dozen; $3.50 per 100.

JONQUILS.—Old-fashioned yellow flowers of the Narcissus family, but smaller and shorter flowers.

SINGLE SWEET-SCENTED.—Dozen, 50 cts.; $3.25 per 100.

DOUBLE SWEET-SCENTED.—Dozen, 60 cts.; $4.00 per 100.

CAMPERNELLE.—Large flowers: an excellent variety for forcing: outside planting. 65 cts. per dozen, postpaid. Not prepaid, 65 cts. per dozen; $4.00 per 100.

Last fall I bought two hundred Emperor Jonquil Bulbs from you and now have the most gorgeous lot of blooms I have ever seen, each bloom being of enormous size. Mrs. J. M. Hollingsworth, Surry County, N. C. April 6th, 1922.
Pamunkey Scratch Food.

A general purpose scratch food of wonderful value. Made of choice, clean grains and seeds mixed in the right proportion to give excellent results. A well-balanced food, very popular with thousands of poultry raisers. Accurate and reasonably priced, it contains eight or more grains and seeds, and is one of our most popular brands. By mail, prepaid, 10-lb. bag 75c.

Not prepaid, 10-lb. bag 45c; 50-lb. bag, $1.60; 100-lb. bag, $3.00.

Hollybrook Scratching Food.—Put up especially for prize birds, or where a very high-grade poultry food is desired. It consists of the best grains and seeds used in any scratch feeds, including sunflower a boon to any flock, and white corn which is more desirable from a plumage standpoint than yellow corn. Our Hollybrook Scratching Food is used almost exclusively by the most successful poultry raisers in the South. By mail, prepaid, 100-lb. bag, 80c.

Not prepaid, 10-lb. bag, 50c; 50-lb. bag, $1.70; 100-lb. bag, $3.25.

Wood's Scratch Food.—One of our original mixtures put up to supply the demand for a complete food of reliable quality at a moderate price. This food has proved very popular for general feeding, its high protein makes it very desirable for laying hens. Contains sunflower and also has yellow corn, making it desirable for flocks of dark plumage. By mail, prepaid, 10-lb. bag, 75c.

Not prepaid, 10-lb. bag 45c; 50-lb. bag, $1.65; 100-lb. bag, $3.10.

Meat Scraps.—During the spring, fall and winter meatscrapes should be a part of the daily ration for every fowl, young or old. For increased egg production during cool weather, we recommend meat scraps very highly, as it contains a large percentage of protein, which is essential for thriving flocks. We are offering two grades, with proportionate prices.

WOOD'S PREMIER MEAT SCRAPS.—55% Protein. By mail, prepaid, 10-lb. bag, 90c. Not prepaid, 10-lb. bag 60c; 50-lb. bag $2.00; 100-lb. bag $3.75.

HOLLYBROOK MEAT SCRAPS.—45% Protein. By mail, prepaid, 10-lb. bag 80c. Not prepaid, 10-lb. bag 50c; 50-lb. bag $1.75; 100-lb. bag $3.25.

Sunflower for Feeding. By mail, prepaid, 1b. 20c; 5-lb. bag $1.00; 10-lb. bag $1.50. Not prepaid, 10-lb. bag $1.00; 50-lb. bag $4.50; 100-lb. bag $7.50.

Hemp By mail, prepaid, 1b. 30c; 5-lb. bag 60c; 10 lbs. $1.00. Not prepaid, 10 lbs. 70c; 50-lb. bag $2.50; 100-lb. bag $4.50.

Buckwheat for Feeding. By mail, prepaid, 1b. 30c; 5-lb. bag 90c. Not prepaid, 10-lb. bag 60c; 50-lb. bag $2.00; 100-lb. bag $3.25.

Poultry Wheat $1.50 per bushel.

Hollybrook Developing Food.—Especially prepared for young chicks after they are ready to be weaned from chick food. This food is composed of whole grains or cracked to a moderate size that is readily catable by growing chicks of six to eight weeks old. Prices: Postpaid, 10-lb. bag, 80c. Not prepaid, 10-lb. bag, 50c; 50-lb. bag, $1.70; 100-lb. bag, $3.25.

Hollybrook Laying Food. This valuable mash food is unsurpassed by any other brand and specifically recommended for thoroughbred, prize-winning poultry. It is a combination of the choicest and best ingredients going into a mash food, and its high content of protein adds to egg production. Used by thousands of the most successful poultry raisers, it has given uniform satisfactory results. Try Hollybrook Laying Food and get results. By mail, prepaid, 100-lb. bag, 90c.

Not prepaid, 10-lb. bag, 50c; 50-lb. bag, $1.75; 100-lb. bag, $3.25.

Hollybrook Pigeon Mixture. —Realizing the necessity of a correct balanced food for pigeons, we have taken unusual care in preparing this mixture, which is used universally by the most successful pigeon breeders. This mixture is composed of Canada field peas, hemp, sunflower and other grains necessary to successful feeding of pigeons.

WITH CORN—By mail, prepaid, 10-lb. bag 85c. Not prepaid, 10-lb. bag 55c; 50-lb. bag $1.50; 100-lb. bag $3.65.

WITHOUT CORN—By mail, prepaid, 10-lb. bag 90c. Not prepaid, 10-lb. bag 60c; 50-lb. bag $2.00; 100-lb. bag $3.90.

Green Cut Alfalfa Meal.—For better quality of eggs the use of green food during the winter is most essential. Green Cut Alfalfa furnishes the right food for these requirements. By mail, prepaid, 10-lb. bag 65c. Not prepaid, 10-lb. bag 35c; 50-lb. bag $1.25; 100-lb. bag $2.25.

Mica Spar Cubical Grit.—A good supply of grit should always be available to poultry, as medium or large. By mail, prepaid, 10-lb. bag 60c. Not prepaid, 10-lb. bag 30c; 50-lb. bag 75c; 100-lb. bag $1.25.

Charcoal.—Aids digestion, purifies the blood and promotes health of poultry to a wonderful extent. Prepared in three grades—Grade A (fine granulated), for use in mash mixtures; Grade B (medium granulated), for small newly hatched to half grown chickens (Grade C coarse granulated), for fowls. By mail, prepaid, 2-lb. carton 35c. Not prepaid, 2-lb. carton 20c; 50-lb. paper lined sack $1.50.

Oats for Sprouting 75c per bushel.

Canada Field Peas By mail, prepaid, 10-lb. bag $1.05. Not prepaid, 10-lb. bag 75c; 50-lb. bag $2.85; 100-lb. bag $5.50.

Kaffir Corn for Feeding By mail, prepaid, 10-lb. bag 75c. Not prepaid, 10-lb. bag 45c; 50-lb. bag $1.60; 100-lb. bag $3.00.

Milo Maize for Feeding By mail, prepaid, 10-lb. bag 75c. Not prepaid, 10-lb. bag 45c; 50-lb. bag $1.60; 100-lb. bag $3.00.

BRAN, SHIPTUFF, CORN, CORN MEAL—Prices on request.

Rust’s Poultry Preparations

Rust’s Egg Producer is a tonic and conditioner for poultry. It is a preparation made up of roots, herbs, etc., supplying just what the hens need for producing eggs, plumage, growth, and development. Each ingredient performs a certain duty. It is not a food supplement, but keeps the poultry in a healthy, vigorous, and productive condition. Rust’s Egg Producer is highly concentrated and is fed in small proportions (a heaping tablespoonful mixed in the morning mash being enough for 12 to 15 fowls) which makes it the most economical preparation for its purpose. Grains and feed do not contain the essential elements needed for large egg production, that is why Rust’s Egg Producer should be added to supply the deficiency. It also makes tarry pullets prompt to lay, shortens the moulting period, is a preventive against many material pests, especially valuable to use in winter, in consequence of the high price of eggs, it is of great value at all seasons and many are using it with decided advantage and profit the whole year round. A small quantity will feed a large flock when feeding a Rust’s Egg Producer. A trial package will convince you. Full directions for feeding in each package.

Rust’s Roup Powder For Roup, Catarrh, Colds, Etc., in Poultry and Fowl Pens.——Roup is probably one of the most contagious diseases among poultry, and every poultry man should take precautions to safeguard his flocks against this deadly disease. One ounce of prevention is equal to a pound of cure. Rust’s Roup Powder kept regularly in the drinking water of the fowl during the fall and winter months, will keep your flocks free from this dreaded disease. The symptoms are: First, frothiness and watery discharges from the eyes and nostrils, then sneezing, snuffles, and in breathing may wax worse. As soon as noticed the fowls infected should be separated from the rest of the flock and the premises thoroughly disinfected by spraying with Rust’s Mite Liquid.

Postpaid Not Prepaid

Rust’s Roup Pills For Treating Individual Cases of Roup, etc.——These pills are intended for individual treatment of fowls suffering from Roup. They are applied on the glands and mucous membranes, allay feverish symptoms, and are believed to be one of the best remedies known for Roup, catarrh, colds, and distemper in fowls, and many pigeon diseases.

Postpaid Not Prepaid
50 pills in box ...$0.75 ...$0.80
115 pills in box ...$1.55 ...$1.50
250 pills in box ...$1.90 ...$1.80

Rust’s Lice Powder For Dusting Poultry and Domestic Animals.——This powder is used for dusting fowls and as it contains no naphthalene or other odorous ingredients, it does not affect the flavor of eggs or injure them for hatching, when fowls and nests are dusted with it. When Rust’s Lice Powder has been used, fowls are healthier, have a better appearance, their skin is healthier and their plumage livelier. Lice, if numerous, make fowls unthrifty and difficult to fatten. They often cause setting hens to leave their nests and prevent hens from laying eggs, unless lice are kept down, poultry keeping cannot be made pleasant or as profitable as it should be. Rust’s Lice Powder kills vermin on fowls, animals or plants, and is very economical to use. Directions on each box.

Postpaid Not Prepaid
5-oz. box ...$0.15 ...$0.10
10-oz. box ...$0.30 ...$0.25
15-oz. box ...$0.40 ...$0.35

Rust’s Water Glass Put Up Especially for Preserving Eggs.——Eggs put away in this solution will keep fresh from six to ten months. Take advantage of the low price of eggs during the summer months and put them away for use next winter when they are always scarce and high. One gallon of Rust’s Water Glass will make enough solution for about fifty dozen eggs. Price, not prepaid, 1 qt. can, 40 cts.; 1-gal. can, $1.25.

Rust’s Mite Liquid For Exterminating Mites——The Poultry’s Greatest Enemy.——This preparation is put up especially for mites that infest the poultry house. They are a vast difference in the habits of lice and mites. The mites live on the roosts and in the cracks and crevices of the poultry house, while the lice live in the body of the fowls. Mites come out at night after the fowls have gone to rest, cover their bodies, and suck their blood, returning in the day to their hiding places. Dust Powder or painting Rust’s Mite Liquid on the roosts and in all the cracks and crevices once or twice a week you can rid your poultry house of mites. Price, not prepaid, 1 qt. can, 50 cts.; 2-qt. can 50 cts.; 1-gal. can, $1.40; 5-gal. can, $6.00.

Rust’s Climax Condition Powder——Mixed with the mash and fed three or four times a week (beginning soon after the chicks are hatched) will nearly always keep the fowls free from Diarrhoea, Gapes, Cholera and other poultry diseases, which often means the difference between success and failure in poultry raising. Rust’s Climax Condition Powder also makes the young chicks develop their plumage and growth faster on the same amount of feed, putting them in the market or laying condition weeks sooner than they would without this powder. Experience shows that Rust’s Climax Condition Powder is equally good for horses, stock, cattle and hogs. This powder acts on the blood, promotes the digestion, increases the appetite and improves the circulation, thereby causing a healthful condition of the animal. Rust’s Climax, 5-lb. pkg. Postpaid contains no antimony, arsenic, or anything harmful.

Postpaid Not Prepaid
13-oz. pkg. ...$0.30 ...$0.25
2-lb. pkg. ...$0.60 ...$0.50
25-lb. pkg. ...$1.00 ...$0.90
10-lb. pkg. ...$1.50 ...
20-lb. pkg. ...$2.50 ...

Rust’s Egg Record For counting and weight of eggs.——For any twelve months. Mailed free on request.

MACKIN’S BARNYARD PROTECTOR.——Save your chicks, turkeys, and game birds, feed them this powder, according to directions, and the barnyard enemies that will eat the entire fowl will surely die. By mail postpaid, 7-oz. pkg., 50 cts.; 1-lb. pkg., 85 cts. Not prepaid, 7-oz. pkg., 50 cts.; 16-oz. pkg., 75 cts.

RACKET’S GAPE CURE.——An excellent remedy for this deadly disease. It is not given internally, but simply dusted over the chicks and hens that are in the least bit sick. Rust’s Climax Condition Powder will kill the worms and germs. Price postpaid, 50 cts. each. Not prepaid, 40 cts. each.

CABOLA.——Is infinitely superior to lime, which loses what slight disinfecting qualities it ever had when exposed to the air. Very much better than kalsomining or whitewash because it paints just as clean and bright a white, but will not chip in scale, age, or peel off. Can be applied with either sprayer or brush. By mail postpaid, 5-lb. pkg., $1.00; 10-lb. pkg., $1.60. Not prepaid, 5-lb. pkg., 75 cts.; 10-lb. pkg., $1.25; 50-lb. pkg., $5.00.
Egg Boxes and Shipping Coops

**Metal Egg Crates** (New Model) For Shipping Eggs by Parcel Post. These boxes are made for continued use, being very strongly constructed, but light in weight. The new patented filler of cardboard, circular in shape (like an egg) and reinforced with metal edges to insure strength, yet light in weight, is a wonder for safety and durability. It is practically egg-proof. This new filler is recognized as a permanent fixture and thereby eliminates the necessity of repacking from time to time, making it both a money and time saver. New fillers will not fit the old style boxes. These boxes do not require outside wrapping for mailing. Descriptive circular mailed on request.

**Andersons “Hatchanegg” Box**

Specially made for shipping valuable eggs for hatching. The maximum of safety is assured. Both body and top are made of double faced corrugated board, waterproofed on the outside. The strength of the package is approved by shippers as well as parcel post and express authorities. The walls are double thickness and the cellular construction not only holds the eggs in place but guards them from excessive heat or cold.

**Spiral Celluloid Leg Bands** — Made in five colors.
- White, Black, Red, Yellow, and Light Blue.

Five sizes—(Order by Number): No. 1, for Asiatic and Dak Turkeys; No. 2, for American; No. 3, for Mediterranean; No. 4, for Small Fowls; No. 5, for Pigeons. No less than one dozen sent of any size or color. By Mail, Postpaid, each 29 cts.; 25 for 35 cts.; 50 for 60 cts.; 100 for $1.00.

**Champion Leg Bands**

—Give perfect satisfaction. They are neat, light, strong and durable; easily and quickly put on and guaranteed to stay on. This band is made in one piece, in two sizes, adjustable to fit any fowl, and numbered. It is made of aluminum, large size for Asiatic and Turkeys; small size for Plymouth Rocks and smaller breeds of fowl. By Mail, Postpaid, 25 for 35 cts.; 40 for 50 cts.; 100 for 65 cts.

**Perfect Poultry Punch** — This punch is so simple in construction that it will appeal to all as a practical tool. Makes a good, clean, clear cut and does not mutilate the web, so as to make cheaper punches. These punches are made expressly for us and we guarantee them to meet all requirements. By Mail, Postpaid, 55 cts. each. Not Prepaid, 50 cts. each.

**Philadelphia Captoring Set** — A new improvement in catching devices for the capture of fowl. It makes the fowl grow faster, the meat sweeter; therefore capons sell at a much higher price on the market than ordinary fowls. The operation is simple, and instructions are furnished with each set: it can be performed in less than ten minutes. By Mail, Postpaid, each $3.00.

**The X-Ray Egg Tester** — The X-Ray Tester is designed for use on ordinary lamp and fits over any style of burner. These testers are thoroughly practical, and where small numbers of eggs are to be tested will answer the purpose well. By Mail, Postpaid, 50 cts. each. Not Prepaid, 40 cts.

Shipping Coops for Poultry

**The Best Coop for Shipping Fancy Fowl.**

—This is a closed coop made of light lumber, having a two-inch opening front and back under slatted top. This allows the fowl plenty of fresh air when shipping. It is light in weight but strong and easily put together. They are made in three sizes, as follows, shipped knocked down:

1. Bird size, 12 inches long by 18 inches wide by 18 inches high. By mail postpaid, 70c each. Not prepaid, 50c each; $5.25 doz.
2. Bird size, 18 inches long by 18 inches wide by 18 inches high. By mail postpaid, 85c each. Not prepaid, 60c each; $6.50 doz.
3. Bird size, 18 inches long by 21 inches wide by 21 inches high. By mail postpaid, $1.00 each. Not prepaid, 75c each; $8.00 doz.

**PARCEL POST EGG BOXES**

A safe and economical box for sending eggs by parcel post. The entire contents are surrounded by a double wall of air-cushioned corrugated board. Absolute protection is therefore assured.

Extra cardboard fillers, per set, consisting of 12 fillers and flats, 50 cts. per set, postpaid.

Poultry Helps and Appliances

**Family Grist Mill** — Made especially to grind hard, soft, or partial flour, rice, corn meal, coffee, spices, etc., for table use. It can also be used to make flour around the house for her own needs. It is made of hard wood, of the finest workmanship, and is guaranteed to last a lifetime. PRICE, POSTPAID, 65 cts. each.

**Dry Bone and Shell Mill** — Made similar to the above for grinding dry bones, oyster shells, charcoal and coarse grain like corn, etc., with metal blades and bag. The hopper is four inches wide by 4¼ inches high, with a balance wheel 20 inches in diameter. The price at which it is sold places it within reach of every poultry man. NOT PREPAID. $2.25 each.

**Poultry Killing Knife** — Every poultry raiser who kills and dresses fowls for market, either chickens, ducks, geese or turkeys, should own one of these knives. They are made of fine tempered steel, and will last a lifetime. PRICE, POSTPAID, 65 cts. each.

**Gape Worm Extractor** — When gape worms lodge in the wind-pipe they must be extracted. If the chicken is not recovered, the worm is often found adhering to the walls of the wind-pipe. PRICE, POSTPAID, 30 cts. each.

**Glass Nest Eggs** — These eggs are made of first-class flint glass, the same size and color of a hen's egg. They do not break easily. Will last a lifetime. Keep one set in the nest. By mail, Postpaid, 40 cts. per dozen. NOT PREPAID, 3 for 10 cts.; dozen 30 cts.

**Knox Nest Eggs** — The Naphthine Nest Egg keeps the nest sweet and dry, and acts as a styptic for the nest under nestling material. They should not come in contact with the eggs for any length of time, as the hen's eggs will become tainted. For this reason we recommend that they be put under the nestling material. By mail, Postpaid, 10 cts. each; 75 cts. per dozen. NOT PREPAID, 6 cts. each; 65 cts. per dozen.
Poultry Fountains and Feeders

Star Jar Fountain and Feeder — Will fill pt. qts. or one-half gallon Mason jar. Manufactured of one piece of non-reinforcing metal. No filter to come unsoldered. Leaking impossible. Convenient, cheap, and sanitary. Greater drinking surface of the round fountain. Little chicks cannot get drowned. Can be used for water or milk. Manufactured in one size only. BY MAIL POSTPAID, 15 cts. each; $1.40 per doz. PAID, 10 cts. each; $1.20 per doz.

Duplex Wall Fountain — The latest and most practical sanitary fountain yet invented. This is a double fountain, easy to fill, and keeps the water clean and pure. Made in two sizes. BY MAIL POSTPAID, 1-gal. size, $1.10 each; 2-gal. size, $1.70 each. NOT PREPAID, 1-gal. size, $1.25 each; 2-gal. size, $1.50 each.

Magazine Chick Feeder and Waterer — A new round chick feeder with a magazine or container to hold a good quantity of feed. The upper magazine is fitted to the feeder top with a spiral thread. It can be adjusted up or down to feed the various kinds of grain. It can be also used as a drinking fountain, as the magazine is water and air tight. No. 18 — Diameter of feeder 8½ inches. Capacity 2 quarts. BY MAIL, POSTPAID, 50 cts. NOT PREPAID, 65 cts. each; $7.80 per doz.

Aluminum Feeding Troughs — Feeding Troughs, made of pure aluminum, which is not affected by the acids of milk and similar feeds. Each made to top are each stamped in one piece, no seams, rivets or solder used. Sliding top makes it easy to clean and fill. Made in two sizes. No. 69 — Length 10 inches. BY MAIL POSTPAID, 55 cts., NOT PREPAID, 50 cts. each; $6.00 per doz. No. 70 — Length 20 inches. BY MAIL POSTPAID, $1.05. NOT PREPAID, 90 cts. each; $10.80 per doz.

Round Baby Chick Feeder — A great feed saver, as the chicks cannot upset it or get into it to contaminate the feed. The top fits snugly, yet it can be easily taken apart for cleaning and filling. Made of best quality galvanized iron. The most popular baby chick feeder on the market. Can also be used for water. Made in two popular sizes. No. 11 — Diameter 6 inches with 6 holes. BY MAIL POSTPAID, 25 cts. each; NOT PREPAID, 15 cts. each; $1.80 per doz. No. 12 — Diameter 8½ inches with 12 holes. BY MAIL POSTPAID, 40 cts. each; NOT PREPAID, 25 cts. each; $3.00 per doz.

Single Feeding Trough — For Chicks and Growing Stock. Made of best quality galvanized iron, accurately stamped with dies. No sharp or rough edges to injure the chicks. Sliding top. Easy to fill and clean. Made in two sizes. No. 55 — Length 12 inches. BY MAIL POSTPAID, 50 cts. NOT PREPAID, 35 cts. each; $4.20 per doz. No. 57 — Length 24 inches. BY MAIL POSTPAID, 75 cts. NOT PREPAID, 55 cts. each; $6.80 per doz.

Grit and Shell Box — This box is manufactured from the best galvanized iron and contains three compartments for food, shells or grit. It can be hung up against the wall at any height desired, and is a thoroughly first-class, practically indestructible, and will last a lifetime. It is the best self-feeder or “food hopper” on the market. By the use of these self-feeding boxes practically every particle of grit, oyster shells, bone meal, flour, food, grit, scraps and other materials supplied is properly used, preventing all waste, and thus increasing the profits. BY MAIL POSTPAID, $1.20 each. NOT PREPAID, $1.00 each.

Galvanized Oat Sprouter — Made entirely of metal. Strong and rigid. Provides the very necessary green feed at all seasons. Healthy chickens and more eggs. The frame is steel, well braced and neatly placed. The top is a galvanized iron pan. Has five perforated bottoms to secure proper drainage, and the bottom pan is solid to hold the drippings. Pans are interchangeable. Sectional frame can be quickly taken apart and stored in a small place. Total height of frame, 3 feet. Size of pans 15 in. by 18 in. Packed knocked down. Shipping weight, 30 lbs. Price, not prepaid, $6.00.

Standard Dry Food Hopper — These Standard Dry Food Hoppers are made somewhat similar to the Shell and Grit Box, but larger. It is a practical labor and time-saving device for feeding dry grain food, either whole or ground. They have two compartments, the larger for grain mixture, holding about three quarts, and the smaller one for seed, holding about one and one-half quarts. Those who are interested in dry feeding and desire to economize on the cost of grain and feed scrap cannot afford to be without the Dry Food Hopper. BY MAIL, POSTPAID, $1.30 each. NOT PREPAID, $1.30 each.

Dry Mash Hopper — Easy to fill. No waste. Rat proof. This hopper is made of heavy galvanized steel and can be hung on the wall or on the desired distance from the floor. The curved bottom keeps the food within easy reach of the birds, and the taper of the bottom—larger at the bottom—keeps the hoppers from being knocked over. It is impossible to waste any feed, as the wire grid and the wires running from the flange through the wire grid prevents the fowls from throwing out or wasting it. The sloping top prevents them from roosting on the hopper, and when both covers are closed it keeps mice, rats, and dust proof. Made in two sizes. No. 25 — 10-qt. capacity. BY MAIL POSTPAID, $1.50. NOT PREPAID, $1.50 each. No. 26 — 12-qt. capacity. BY MAIL POSTPAID, $2.00. NOT PREPAID, $2.00 each.

Double Feeding Troughs (For Chicks and Growing Stock) — Made of best quality galvanized iron, accurately stamped with dies. Sharp or rough edges to injure the chicks. Sliding top. Easy to fill and clean. Made in two sizes. No. 58 — 12 in. BY MAIL POSTPAID, 60 cts. NOT PREPAID, 45 cts. each; $5.40 per doz. No. 60 — 24 in. BY MAIL POSTPAID, 90 cts. NOT PREPAID, 70 cts. each; $8.40 per doz.

Eclipse Feeding Trough — New popular priced feeding trough, made of galvanized iron and intended for chicks and growing stock. The cover and top are both stamped in one piece, no seams, rivets or solder used. Sliding top makes it easy to fill and keep clean. Made in two sizes. No. 27 — 10 in. BY MAIL POSTPAID, 35 cts. NOT PREPAID, 25 cts. each; $2.00 per doz. No. 29 — 20 in. BY MAIL POSTPAID, 50 cts. NOT PREPAID, 40 cts. each; $4.80 per doz.

Tycos Incubator Thermometers — The best incubator or brooder manufacturer is worthless unless the thermometer used therein is accurate. The Tycos thermometer here listed is thoroughly tested before shipped. BY MAIL POSTPAID, 80c.

Incubator Hygrometers — Millions of chicks die in the shell every year for the want of proper moisture conditions. Incubator Hygrometers do not regulate the moisture, but is an indicator, showing exactly what conditions are, so that if not correct, they may be made so. BY mail postpaid, $1.85 each.
INSECTICIDES, SPRAYERS AND TOOLS

No article on this page can be mailed except those quoted "postpaid"

Lime-Sulphur (For San Jose Scale).—The most generally used of the Bordeaux mixtures, it is especially valuable in controlling scale insects and mildew of many vegetables. Lime-Sulphur Solution.—Our solution retains its strength indefinitely and does not crystallize if kept from air and freezing; is easy to handle, and is always ready. For fall and spring spraying use solution made from 1 lb. of lime-sulphur solution to 5 gallons of water. For summer spraying 1½ lb. to 20 gallons to which add 10 lbs. of dry powdered arsenate of lead, or 1 lb. of arsenate of lead to 30 or 40 gallons. By mail, prepaid, 1 lb. 50 cts.; 10 lbs. $5.50. Not prepaid, 1 lb. $1.25; 10 lbs. $12.50.

DRIED LIME-SULPHUR.—Exactly like lime-sulphur solution except that the water has been taken out. No freight to pay on water, no leakage, never freezes. For fall and spring spraying, use 12 to 15 lbs. to 50 gallons of water. For summer spraying use 3 lbs. to 50 gallons of water. To the summer spray add 2 lbs. of arsenate of lead or its equivalent to 20 gallons of water. By mail, prepaid, 10 lbs. $1.25; 15 lbs. $1.75; 25 lbs. $2.50; 50 lbs. $5.00; 100 lbs. $14.50.

Scale Oil.—For bad cases of San Jose scale, oyster shell, terrapin and lecanium scales that are not readily controlled by lime-sulphur. It is particularly good for hedges and trees on the lawn, as it does not stain. Add one gallon of Scale Oil to 16 gallons of water, stir thoroughly and apply with spray pump while the trees are dormant. It mixes well with cold water and spreads-sulphur, Bordeaux mixture and Kerosene Emulsion. By mail, prepaid, qt. 65 cts.; 2 qts. 95 cts.; gal. $1.75; 5 gals. $7.50.

Bordeaux Mixture.—This mixture not only prevents blight, mildew and rotting of many vegetables, fruits and flowers, but improves the quality and largely increases the yield. It should be used on all vine crops, grapes, cucumbers, melons, tomatoes and peppers and especially responds generously to thorough spraying. To make a combined fungicide and insecticide, add a pound of Paris green to the two quarts of water used in the dilute mixture. It may be applied dry or in water. By mail, prepaid, 1 lb. to 8 gals. for 1 lb. $1.75. Not prepaid, lb. 25 cts.; 5 lb. $1.50; 10 lb. $2.75; 25 lb. $5.50; 50 lb. $11.00; 100 lb. $18.00.

Arsenate of Lead.—For leaf-eating Insects. Sticks to the leaf better than Paris Green and should be used on vegetables, flowers and ornamentals. Use arsenate of lead in 50 pounds of plaster, or with water to 150 gallons. On vines and tender vegetables use a larger proportion. Use 1 lb. of sulphur to 20 lbs. of water. ½ lb. of arsenate of lead to 20 lbs. of water. By mail, prepaid, 1 lb. 60 cts.; 5 lb. $2.75. 10 lb. $4.00; 25 lb. $9.50. Cannot be mailed.

Paris Green.—For leaf-eating Insects. It is a strong poison and should be used with care. Use 1 lb. of Paris green to 50 gallons of water. By mail, prepaid, 1 lb. 60 cts.; 1 lb. 5 lb. 25 cts.; 1 lb. 8 lb. 25 cts.; 1 lb. 10 lb. 25 cts.; 1 lb. 20 lb. 25 cts.; 1 lb. 30 lb. 25 cts.

Bug Death.—Kills potato, squash and cucumber bugs, tomato, potato and other insect pests. Use it generously. By mail, prepaid, 5 lb. 45 cts.; 10 lb. 90 cts.; 25 lb. 2.25 cts.; 50 lb. 4.50 cts.; 100 lb. 9.00 cts. Cannot be mailed.

Black Leaf Special Nicotine Dust.—Many insects attack garden vegetables on the under side of the leaf where liquid spray can’t reach them. Black Leaf Special is the strongest nicotine dust guaranteed to contain not less than 2% of actual free nicotine. It kills even the most resistant aphids, such as attack cucumbers, melons and peas as well as those that attack other garden vegetables. Apply it with a good dust gun like the Dr. Dowdow or as directed on package. Use 5 lbs. of Black Leaf Special to 1 acre of cucumbers and melons. Apply 40 to 50 lbs. per acre on garden peas. Not prepaid, 1 lb. 25 cts.; 5 lb. $1.25; 50 lb. $5.00; 100 lb. $9.50. Cannot be mailed.

Para-di-Chloro-Benzene.—For peach tree borer. Sometimes called Poisoned Peaches. Ask your dealer for this material. By mail, prepaid, 1 lb. 5 lb. 25 cts.; 5 lb. 25 cts.; 1 lb. 5 lb. 25 cts.

Formalin.—Recommended for scab on potatoes and smut in grain crops. Directions for using it are given on page 8 and on the packet itself. By mail, prepaid, 1 lb. 25 cts.; 5 lb. 25 cts.; 1 lb. 50 cts. Not prepaid, ½ lb. 25 cts.; 1 lb. 40 cts.

Grafting Wax.—By mail, prepaid, ½ lb. 30 cts.; 1 lb. 50 cts. Not prepaid, ½ lb. 25 cts.; 1 lb. 40 cts.

Black Leaf 40.—For Sucking Insects. Kills plant lice on vegetable crops, shrubs and house plants. A 100 gallon container of concentrated solution of nicotine sulphate, guaranteed to contain not less than 40 per cent of nicotine. A solution in the proportion of 100 gallons of water to 1 lb. of Nice 40 will kill the garden pea louse and not injure the vines. Mix with 800 times its bulk of water, 1 oz. bottle 50 cts.; ½ lb. $1.25; 1 lb. $2.50; 10 lb. pkgs. $13.50. Cannot be mailed.

Kerosene Emulsion.—For Sucking Insects. Use charge of 1 oz. to 100 gallons of water. Mix with 400 times its bulk of water, and use charge of 1 oz. to 100 gallons of water. 5-lb. cases; $1.25; 10-lb. pkgs. $15.00. Cannot be mailed.

Slug Shot.—Destroys insects and slugs. Use charge of 2 oz. to 100 gallons of water. By mail, prepaid, 1 lb. 25 cts.; 5 lb. 1.25. Not prepaid, lb. 25 cts.; 5 lb. $1.00.

Fish Oil Soap (Sometimes called Whale Oil Soap).—Effectively destroys the mealy-bug aphids and lice on indoor plants, shingles and scale on palms. Recommended for San Jose scale and insects that infest perennials. By mail, prepaid, 50 lbs. 25 cts.; 100 lbs. 50 cts. Cannot be mailed.

Thy-Cresol.—For scab, manganese, copper, wounds, sores, sad- die-galls, burns and scalds; kills vermin on animals and poultry; a disinfectant against foot and mouth disease and swine fever; for tape worm in calves, worm in the throat of lambs, gapes in chickens; protects seed corn from blight and fusiform; disinfects grain, seed, vegetables and decayed foods. By mail, prepaid, 1 qt. 40 cts.; 1 gal. 35 cts.; 10 lb. 1.25 cts. Cannot be mailed.

Sulpho-Tobacco Soap.—An effective and economical insecticide and convenient and safe to use for spider, mealy bug and many other sucking insects on roses, vines, shrubbery and other garden plants; prevents rose lice and mildew on rose bushes. It is only necessary to dissolve the soap in water, strain and apply. A 3-oz. cake makes 1½ gallons of solution; an 8-oz. cake makes 4 gallons. 2-oz. cake, 15 cts.; 8-oz. cake, 30 cts., postpaid.

Stimulant.—A highly concentrated, odorless fertilizer for the vegetable and flower gardens, shrubs and house plants. The analysis is guaranteed 11 per cent nitrogen, 12 per cent phosphoric acid, 15 per cent potash. An application of each plant food to insure a quick and strong growth of all plants, earlier maturity of garden vegetables, and a generous supply of blooms from flowering plants. By mail, prepaid, 10-lb. pkg. 15 cts.; 30-lb. pkg. 25 cts.; 100-lb. pkg. 75 cts.; 1000-lb. pkg. 3.50, postpaid.

Copper Sulphate.—Blue Stone or Blue Vitrol. Used forver spray and dusts, and in making Bordeaux Mixture and copper solution. Will keep indefinitely. Special prices quoted on large quantities. By mail, prepaid, 5 lb. 50 cts.; 10 lb. 1.00; 25 lb. 3.00; 50 lb. 5.50; 100 lb. $10.00.

Powdered Sulphur.—Use on potatoes when cut for planting to prevent scab and bleeding; for mildew of fruit and in making Bordeaux Mixture and copper solution. By mail, prepaid, 5 lbs. 45 cts.; 10 lbs. 75 cts.; 25 lbs. $1.65; 50 lbs. $3.00; 100 lb. bar $5.50.
Compressed Air Sprayer. — A self-operating, strong, durable, high-pressure sprayer; easy to carry and easy to work. It will handle water, paint, whitewash, Bordeaux mixture, Paris green, arsenate of lead and other spraying materials. May be charged by a few strokes of the plunger, and two pumpings will usually discharge the entire contents of the tank. Capacity, 3½ gals.; automatic shut-off nozzle; valves all metal. Do not use galvanized tank for Bordeaux mixture and lime-sulphur.

By mail. Not prepaid. 
Galvanized Steel Tank $6.90 $6.50 
Brass Tank Extra Nozzles, $2.00 each. 

Bucket Spray Pump. — A double acting pump made entirely of brass except foot rest and handle—brass resists the corrosive action of spray chemicals. Has brass ball valves, hemp packed plunger. The air chamber is large to give a continuous spray and insures easy operation. A splendid sprayer for general spraying, whitewashing, putting out fires, washing vehicles, etc. By mail, postpaid, $4.85. Not prepaid, $4.75. 4-foot extension pipe, for reaching into trees and inaccessible places, 50 cts. Not prepaid, 40 cts.

Hand Sprayer. — Very useful in small gardens, greenhouses, for spraying house plants, poultry houses, etc., applying liquids in a fine mist, with no waste. Distributes Slug Shot, Paris green and similar dry powders perfectly. By mail, postpaid, 65 cts. Not prepaid, 50 cts.

Continuous Sprayer. — Gives a uniform, continuous spray on both up and down stroke of plunger. Will spray fly oils, insecticides and disinfectants as well as regular spraying materials. Operates at any angle. All parts accessible for cleaning. Not prepaid, 50 cts.

Wheelbarrow Spray Pump. — An ideal outfit for large gardens, poultry plants, for applying spray solutions, disinfectants and whitewash. Goes anywhere through narrow openings like a wheelbarrow. The extra long handle and large air chamber develop 150 to 200 lbs. pressure with minimum effort. Made of the best materials, all working parts of brass or bronze. The cart is strong, all steel and cross braced. The galvanized tank holds 3½ gallons. Fully equipped with 1½ feet of hose, nozzle and 8-foot extension pipe with stop cock. Complete, $25.50.

Combination Sprayer. — A combination knapsack and bucket pump that will throw any kind of spray from very fine mist to a solid stream. The pump is brass, is double acting practically indestructible and will generate 200 lbs. pressure. By detaching hose from tank and attaching the strainer you have a first-class bucket pump. Fine for applying whitewash, water paint, insecticides and disinfectants.

Knapsack Outfit — Pump, tank, 2½ ft. of hose and strainer. Price, $5.00.

Bucket Outfit — Same as the above, but without tank. By mail, postpaid, $4.55. Not prepaid, $4.75.

Dry Powder Duster. — Distributes any dry powder or fluid, capable of leaf, slug shot and Paris green to perfection. Keeps the poison at a safe distance from the operator, and will dust potato plants as fast as the operator can walk. 2 rows at a time. The best appliance for tobacco growers. By turning handle a fan is rapidly revolved, distributing the insecticides uniformly on 2 rows at once, and to all parts of the plant and on both sides of the leaf. By mail, postpaid, $10.00. Not prepaid, $9.75.

Feeny Dust Gun. — Double acting, and applies all dry powdered insecticides in a smoke-like cloud that reaches all parts of the plant. So light and easily worked that a child can operate it. By mail postpaid, $1.10. Not prepaid, $1.00.

Scollay Plant Sprinkler. — Fine for watering house plants and for applying insecticides and liquid fertilizers in the spray either underc or over the foliage. By mail, postpaid, $1.50. Not prepaid, $1.50.

Barrel Spray Pump. — Has bronze ball valves and brass seats; the plunger is brass with hemp packing, the cylinder and discharge pipes are brass—the only metals not affected by spray chemicals. The air chamber is 32 inches long, insuring a uniform, constant spray. Has good leverage, is powerful and easily operated. It is built so that the entire pump sets inside the barrel, the working parts are submerged in the spraying liquid and does not lose priming. Make an 8 x 8 opening in the head of the barrel, bolt in the pump and it is ready to work.

Pump with mechanical agitator, 15 feet of 1½-inch hose, 8-foot extension pipe and nozzle, $17.00.

Nozzles, Hose, &c. 
BORDEAUX NOZZLE. — Throws a solid stream or a fine mist, or may be shut off entirely. $1.00 each. By mail, postpaid, $1.05. 
VERMOREL NOZZLE. — Made with spring degorger for removing obstructions. 25c. each. By mail, postpaid, 30c. 
RUBBER HOSE. — For Bucket Pump and Combination Air Sprayer use ¼ inch size; for Combination, Barrel and Wheelbarrow Sprayer use ½ inch size. By mail, postpaid, ¼ inch, 17c per foot; ½ inch, 20c per foot. Not prepaid, ¼ inch, 15c per foot; ½ inch, 18c per foot. 
CLAMPs for attaching hose, ½ and 1½-inch sizes, 10 cts each. 
COUPLINGS, male and female, 30c each. By mail, 35c.

Asparagus Buncher. — Adjustable to size of bunch and length of stalk. Makes bunches 4 to 5½ inches in diameter, 8 to 12 inches long. By mail, postpaid, $4.00. Not prepaid, $3.75.

Asparagus Knife. — 1½ in. long; the blade 1½ inches wide.

By mail, postpaid, 40 cts.; $4.00 per dozen. Not prepaid, 35 cts. each; dozen $3.75.
Tools and Garden Necessities

**Pruning Shears** — A1. A first quality shear with high grade tool steel blade, polished and tempered; 9 inches long; double brass spring. By mail postpaid, $1.60. Not prepaid, $1.95.
A3. A well made and satisfactory shear; 9 inches long; polished tempered blade; strong steel coil spring. By mail, $2.50. Not prepaid, $3.50.
A4. A good shear at a low price; 8½ inches long; steel blade and cast handle; strong coil spring. By mail, 60cts. Not prepaid, 70cts.

**Hedge Shears** — Made of the finest grade tool steel; 9-inch blade with notch at throat of blades for cutting small branches. Blades polished; handles of metal and wood. By mail, $2.50. Not prepaid, $3.50.

**Steel Garden Weeder** — One piece pressed steel; finished in black enamel; has five steel fingers; a useful and serviceable weeder. By mail, 30cts. Not prepaid, 25cts.

**Hand Weeder** — A real labor saver; fits the hand nicely; made of a single piece of hard, stiff steel; ground edges. By mail, postpaid, 20cts. Not prepaid, 25cts.

**Mole Trap** — Self-setting. The spears are made of spring steel and will pierce the mole easily; thoroughly lined to prevent rusting. By mail, postpaid, $1.15. Not prepaid, $1.00.

**Four Tine** — A good and serviceable fork, but not the equal of the 3-tine. Finished in red enamel, polished points, hardwood handle. Length 10 inches. Forks 3½ inches. By mail, postpaid, 30cts. Not prepaid, 25cts.

**Spading Forks** — Tine convenient, strong, and well made; tines polished; hardwood handles. By mail, postpaid, 45cts.

**GARDEN TROWELS**

**Galvanized Garden Trowel** — Made of a single piece of heavy steel; handle and blade in one piece. By mail, postpaid, 25cts. Not prepaid, 20cts.

**Steel Garden Trowel** — Pressed steel, 9-inch blade, 1 ½ in one piece; ground and polished point. No wood handle to break or come off; blade 6 inches long. By mail, postpaid, 30cts. Not prepaid, 25cts.

**Transplanting Trowel** — The blade is 6 inches long, 1 ½ inches wide. The entire trowel is made of one piece of pressed steel. Not prepaid, 25cts.

**Dandelion Weeder** — A fine tool for getting up deep rooted weeds in the lawn and garden. By mail, postpaid, 30cts. Not prepaid, 25cts.

**Three Piece Garden Set** — A garden trowel, a transplanting trowel and a weeder. All are made of good material, each tool is made of a single piece of heavy pressed steel, handsomely finished in black enamel. The trowels have 6-inch blades with ground and polished points. No wooden handles to come off or break. By mail, postpaid, 50cts. Not prepaid, 70cts.

Spring Tooth Weeder

You cannot realize how handy they are till you use one. They are light in weight, but strongly made of the best material. They are practical and durable, time and strength savers.

**Raffia** — For tying up bunches of vegetables, tomato plants, grape vines, etc. Preferred for these purposes because it does not cut the stems. By mail postpaid, 1b. 20cts.; 5 lbs. $1.15. Not prepaid, 1b. 20cts.; 5 lbs. $1.75.

**Jute String** — For tying up vegetable bunches, tomato plants, etc. By mail postpaid, 25cts. per lb. Not prepaid, 30cts. per lb.; 5 lbs. for $1.40.

**Pot, Plant, and Tree Labels**

**Waterproof Paper Pots** — Made of thick, tough, waterproof paper; light, unbreakable, easy to handle and set up ready for use. By mail postpaid, 100cts.

**PLANET JR. GARDEN TOOLS**

Send for Complete Catalog.

Do you work your garden with an old-fashioned hoe or with modern tools like a Planet Jr.? If you could see one at work with no argument would be necessary to convince you that you just must have one. We have used them for more than thirty years and could not do without them. Send for complete catalog.

**DRILLS**

**No. 3 Drill** — Sows at any desired depth in continuous rows or on plants 2, 4, 6, 8, 12, 16, 24 inches apart, covers, rolls, and marks the next row all at a single operation. Price, $2.00.

**No. 4 Drill** — Sows the seeds either in continuous rows or in hills 2, 4, 6, 8, 12 or 24 inches apart; covers the seeds and marks the next row at one operation. The drill can be detached from the frame and the working tools attached—sows hills, 3 cultivator teeth and a pair of wagons. Price, $12.00.

**No. 31 Drill** — Plants in drills any depth you like, and, like No. 4, the drill can be detached when you want to cultivate. The curved handles turn beneath the frame; a cultivating steel to open rows, a 5-prong cultivator for deep or shallow work; 2 sweeps of different widths and a large plow. Price, $14.00.

**No. 35. Seeder Attachment.** With it anyone who has a Planet Jr. wheel hoe can complete his assortment of tools. Fits any Planet Jr. single and double wheel hoe except No. 33 Single Wheel Hoe and Fire Fly Plow. It is attached by a single bolt and sows in straight even rows at a uniform depth and covers the seeds. Price, $6.75.

**PLOWS AND CULTIVATORS**

**No. 16. Single Wheel Hoe, Cultivator, Rake and Plow.** Equipped with a pair of 6-inch hoes, 3 cultivator teeth, a large plow; 4-inch and 7-inch rakes and leaf guard. A splendid combination. Price, $10.25.

**No. 17. Single Wheel Hoe.** Exactly like No. 16, but has no rakes. Price, $8.50.

**No. 19. Garden Plow and Cultivator.** Has a cultivating tooth for deep work, a 16-inch sweep for shallow work, a 30-inch cultivating attachment and a plow. 16-inch wheel. Price, $6.50.

**No. 119. Has a strong plow, two cultivator teeth, wide and narrow, a reversible attachment with 3-toothed cultivator and scuffle for weeding and shallow cultivation. Wheel 24 inches high. Price, $5.50.

**No. 12. Double and Single Wheel Hoe.** Will straddle the row and work both sides at once, or between the rows as you prefer. Has 2 hoes, 4 cultivator teeth, a pair of plows and 2 leaf lifters. Price, $12.50

**Fire Fly Garden Plow.** An exceedingly useful tool in the small garden and chicken yard. Price, $4.40.

---

**About Warranting Seeds** — While we use great care, both for our own and our customers' interest, to supply and furnish the best seeds that it is possible to obtain, there are so many conditions—weather and other causes—affecting the growth of seeds and the out-turn of crops, that it must be distinctly understood that all our seeds are sold under the conditions in regard to non-warranty of seeds, which have been generally adopted by the seed trade and which are as follows:

"We give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned, and amount paid for them will be refunded."

Errata Sheet for Fall Catalog 1924

GIVING A COMPLETE LIST OF ALL PRICE CHANGES SINCE OUR CATALOG WENT TO PRESS. ALL OTHER PRICES UNCHANGED.

NEW CROP CRIMSON CLOVER

We have just received our first shipment of NEW CROP CRIMSON, and can make immediate shipment at the following reduced prices. This seed is of fine bright quality, being re-cleaned and of high tested purity and germination.

Prices f. o. b. Richmond, 2½-bushel cotton bags 50c. each extra, 1-bushel size 25c.: WOOD’S TRADE MARK BRAND QUALITY, 100-lb. lots and over, 10½c. lb.; 50-lb. lots, 8½c. lb.; 10-lb. lots, 10c. lb.

Note the Following Reduced Prices on GRASS SEEDS

ORCHARD GRASS, Trade Mark Brand, 100-lb. lots and over, 19c. lb.; 50-lb. lots, 19½c. lb.; 10-lb. lots, 21c. lb.

ORCHARD GRASS, Standard Brand, Virginia grown, containing a slight trace of onion, 100-lb. lots and over, 18c. lb.; 50-lb. lots, 16½c. lb.; 10-lb. lots, 18c. lb.

TALL MEADOW OAT GRASS, Trade Mark Brand, 100-lb. lots and over, 20c. lb.; 50-lb. lots, 20½c. lb.; 10-lb. lots, 22c. pound.

WOOD’S SPECIAL GRASS AND CLOver MIXTURES.—For orders placed during the month of August, we will make a special price on these Mixtures in 100-lb. lots and over of 20c. per pound.

The surest and most satisfactory hay and pasture crops are obtained by the use of these Mixtures, and we hope that our customers will take advantage of this special price. See pages 8 and 7 of Catalog giving full information.

Note the Following Changes on NEW CROP GRAINS

Since our Catalog went to press there has been a very heavy advance on all grain, and consequently have had to make a few changes on some items. The following prices include bags and for choice quality re-cleaned seed stocks:

FALL IS THE BEST TIME FOR SEEDING LAWNS

There is no better way of improving your home than by having a beautiful green lawn the year-around. See inside cover page for full directions for seeding, etc.

POULTRY FOODS. Owing to the heavy advance in the grain market, we have had to advance prices on Scratch and Mash Foods, 10c. per 100-lb. bag and 5c. per 50-lb. bag over those printed in Catalog.

T. W. WOOD & SONS, Seedsmen

Richmond, Virginia

AUGUST 7, 1924.
BEFORE SEALING THIS ENVELOPE

Be sure you have written your name, postoffice and shipping point plainly on your order.
Parcel Post Shipments

We ship by parcel post to any postoffice in the United States, and pay the postage at prepayed prices as quoted in this catalog. If you live on an R. F. D. route your seeds will be delivered at your door; or if you prefer it, will ship by express charges paid.

"By mail postpaid" means we pay the postage.
"Not prepaid" means you pay the cost of transportation.

Notes About Parcel Post

Weight limit to 1st, 2d and 3d Zones 70 lbs.; in other zones, 50 lbs. If your order exceeds these weights we can divide into two or more packages.

Bulk limit to all zones, 84 inches.

Pots and Seed cannot be sent by parcel post.

Liquids and goods packed in glass should be sent by express.
